## **The Remarkable Record Of Job:**

*Remarkable Record of Job* Henry Morris, 2000-02 Far from a myth or fable the majestic Book of Job stands forever as a genuine historical account of a man assaulted by the accuser Satan and redeemed by a loving God The author asserts further that Job's ancient account possibly the oldest book in the Bible apart from Genesis is scientifically reliable touching on aspects of nature that prove man's early knowledge of the universe was more highly sophisticated than many believe today While this commentary emphasizes that we are not told in the Book of Job why humans suffer there is sufficient evidence to help us understand that God is indeed interested in us The Remarkable Record of Job- Henry Madison Morris, 1988

Men of Science, Men of God Henry Morris, 1988-07-01 One of the most serious fallacies today is the belief that genuine scientists cannot believe the Bible BUT THE TRUTH IS that many of the major scientific contributions were made by scientists who were dedicated men of God In *Men of Science Men of God* Dr Henry Morris presents 101 biographies and Christian testimonies of scientists who believed in the Bible and in a personal Creator God scientists who were pioneers and founding fathers of modern scientific disciplines **The Creationist Debate, Second Edition** Arthur McCalla, 2013-08-29 Whereas scholarly study of Creationism usually places it in the context of religion and the history or philosophy of science *The Creationist Debate* here revised and completely updated in its second edition has been written in the conviction that creationism is ultimately about the status of the Bible in the modern world Creationism as a modern ideology exists in order to defend the authority of the Bible as a repository of transhistorical truth from the challenges of any and all historical sciences It belongs to and is inseparable from Protestant Fundamentalists desire to resubject the modern world to the authority of the inerrant Bible Intelligent Design creationism to the extent that it distinguishes itself from reactionary biblicism is a program advocating a supernaturalist providentialist understanding of the world Accordingly *The Creationist Debate* situates Creationism and Intelligent Design in relation to the rise from the early modern period onwards of historical thinking in various scientific and scholarly disciplines including theories of the earth chronology civil history geology biblical criticism paleontology evolutionary biology and anthropology in their complex relationship to the status of the Bible as an historical authority It argues that the debate over Creationism is at bottom a debate over how to interpret the biblical text rather than over how to interpret the world **Annual Report** Illinois. Committee on Small Business,1987      Biblical Creationism Dr Henry Morris,2022-04-19 THE DOCTRINE OF CREATION DOESN T REALLY MATTER OR DOES IT The history of creation is sprinkled all throughout Scripture not just described in Genesis 1 and 2 The same goes for the Flood account in Genesis 6 9 But why does this matter Dr Morris shows that piecing together all these bits of scriptural information reveals how badly the secular world has misinterpreted the scientific evidence The doctrine of creation is so foundational to the Christian worldview and this book helps us understand why This study strives to convince Christians everywhere that they must abandon all compromise theories of creation and return to the simple Genesis record of supernatural six day creation Recognize that biblical authors accept creation and the Flood as true history Discover how Scripture supports a recent creation and a global Flood Examine the impossibility of evolution
