Alfred's Wars Ryan Lavelle, 2012 Although this book provides a selection from sources and interpretations of warfare in Viking Age England and presents a consideration of them it is more than a purely historiographical study It investigates the current state of scholarship and the key points of its development indicating areas for enquiry and point out some less familiar sources along the way The intention is not to deal with the canon of historical works on the Anglo Saxon army for remarkably there is no canon as such Much though by no means all scholarship on the organization of military systems in the Anglo Saxon state has been undertaken by historians and scholars from related disciplines for whom warfare is not a primary concern Many of the sources used will be familiar to students of early medieval England but others are included because they are less often considered I have not attempted to use a chronological structure nor have I retold any particular narrative history of the English Kingdom during the Viking Age although for the reader's convenience a chronology of events is included as an appendix The focus is rather the exploration of the practice and politics of warfare Preface American Book Publishing Record, 2004 *The Benedictines in the Middle Ages* James G. Clark, 2014-11-20 The men and women that

niederländischen Fürstentum Von der Übernahme des flämischen Erbes durch Herzog Philipp den Kühnen 1384 bis zum sogenannten Damenfrieden von Cambrai 1529 schildert der Autor die wechselvolle Geschichte dieses Länderkomplexes wobei erstmals in der deutschsprachigen Forschung die Zeit Maximilians I und Philipps des Schönen als integraler Teil der Entstehung der Burgundischen Niederlande gewertet wird Ein wichtiges Mittel der Integration des Adels und der städtischen Oberschichten in den erworbenen Ländern war der prunkvolle fürstliche Hof *Die Konsumentenstadt - Konsumenten in der Stadt des Mittelalters* Stephan Selzer, 2018-04-16 Für eine moderne Stadtgeschichtsforschung hat sich die Wiederaneignung von Max Webers Überlegungen zum Typus der okzidentalen Stadt als besonders inspirierend erwiesen Weniger präsent ist demgegenüber dass in den Debatten der Zeit um 1900 der ökonomische Aspekt des Stadtbegriffs von ganz erheblicher Bedeutung gewesen ist Dieser Zusammenhang ist am Werk von Max Weber ablesbar Deutlicher noch findet er sich bei Werner Sombart ausgearbeitet der gegenüber Produzenten und Fernhändlern den Konsumenten eine zentrale Rolle für Stadtentstehung und Stadtentwicklung zuweist Der vorliegende Sammelband prüft die Ertragskraft konsumgeschichtlicher Konzepte und bezieht sie auf aktuelle Problemzusammenhänge der mittelalterlichen Stadtgeschichte *European Port Cities and Urban Regeneration* Enrico Tommarchi, 2022-07-29 Culture and event led regeneration have been catalysts for the transformation of redundant urban port areas and for the reframing of the image of many port cities which notably feature among mega event bidding and host cities However there is little understanding of the impacts of these processes on port city relationships as well as of how port city cultures shape mega events and the related regeneration strategies The book examines the underexplored mutual links between on the one hand urban and socio economic regeneration driven by cultural and sporting mega events and on the other hand the spatial political and symbolic ties between cities and their ports By adopting a cross national comparative perspective with in depth case studies Hull Rotterdam Genoa and Valencia and examples from other port cities across the world where mega events were held the book engages with issues such as the tension between port and cultural uses reactions and opposition to mega events in port cities clashing urban imaginaries drawing on port activity and culture the role of port authorities and companies in the city's cultural life the spectacularisation and commodification of local maritime culture and heritage processes of cultural demaritimisation and remaritimisation of port cities The book is therefore a contribution towards the bridging of port city and mega event studies and it provides insights for port city policy makers and mega event promoters drawing from a range of international experiences The book also shows how societal and political change in the current ontologically insecure times may undermine the very paradigm of culture and event led regeneration in the years to come 2000 Johannes Paulmann, Markus Friedrich, Nick Stargardt, 2017-12-04 Das Jahrbuch für Europäische Geschichte stellt sich vor als Forum für Experten aus den europäischen Ländern die zu herausragenden Themen Problemen und Grundsatzfragen der europäischen Geschichte Stellung nehmen als Podium für ausgewiesene Kenner aus Europa und übersee die Forschungstrends und Forschungsergebnisse aus ihren Ländern
