Discussion focuses on three broad uses commonly urged for rules: to define sport, to judge or assess sport performance and to characterize the value of sport, especially if that value is regarded as moral value. In general, *Sport Rules and Values* rejects a conception of the determinacy of rules as possible within sport and a parallel picture of the determinacy assumed to be required by philosophy. Throughout the presentation is rich in concrete cases from sport including cricket, baseball, American football, soccer and ice skating. Detailed consideration of some ideas from classics in the philosophy of sport, especially writings by Bernard Suits and William Morgan, contextualizes this discussion. Overall, this work exemplifies the dependence of philosophical considerations of sport on ideas from philosophy more generally. Thus it sketches, for example, the contrast between rules and principles, an account of the occasion sensitivity of understanding and the place of normative and motivating reasons within practical reasoning. *Sport Rules and Values* represents a distinctive conception both of sport and of its philosophical investigation, which will appeal to all those with an interest in philosophy and ethics of sport. **Runner's World**, 2006-08 *Runner's World* magazine aims to help runners achieve their personal health, fitness and performance goals and to inspire them with vivid, memorable storytelling. **Boys' Life**, 1952-06 *Boys' Life* is the official youth magazine for the Boy Scouts of America.
