Against Cybercrime Kevin F. Steinmetz, 2023-09-01 This book advances a theoretically informed realist criminology of computer crime Looking beyond current strategies of online crime control this book argues for a new sort of policy that addresses the root causes of computer crime and criminality reduces the harms experienced by the victims of such crimes and does not unduly contribute to state and corporate power and surveillance Drawing both on the proponents of realist criminology and on those who have leveled critiques of the approach Steinmetz illustrates the contours of a realist criminology of computer crime by considering

definitions of harm with online crime the idiosyncrasies of online locality and community the social relations of computer crime the tension between piecemeal reform and structural changes and other matters Furthermore Steinmetz surveys the methodological dimensions of computer crime research offers a critique of positivist computational criminology and posits an agenda for computer crime policy Against Cybercrime is an essential reading for all those engaged with cybercrime realist criminology criminological theory and social harm online **Handbook of Research Methods and Applications in**

Management Research in Context Bruno Américo, Stewart Clegg, César Tureta, 2022-08-18 This concise book uses narrative fiction to address how researchers can conduct qualitative research using both online and first hand data and digital and face to face methods The book is structured around four phases of the research process accessing management field research writing the literature review collecting and analysing data and enacting qualitative research and finally the creative process of writing qualitative research Theory and practice are merged through a situation based case study within each chapter with the methods and tools employed in each context explored through narrative fiction The protagonists of each case have specific questions emotions and ambiguities that qualitative researchers need to face offering a unique approach to the practice of qualitative research and how it is used in real life situations Founded on the idea of enacting and not just doing qualitative research this book offers toolkits that the researcher can use to operationalize research from start to finish It will be of interest to postgraduate students conducting research based projects in Business and Management PhD researchers and academics looking for a fresh approach From Risk Profiling to Enterprise Resilience Sylwia Bąk, Piotr

Jedynak, 2024-09-24 From Risk Profiling to Enterprise Resilience introduces readers to a new approach to risk profiling theory and methodology as well as relationships between an enterprise s risk profile and its resilience to crises Given the need to reflect on changes in approaches to risk and risk management in the aftermath of the COVID 19 pandemic the book attempts to characterize the interdependencies between risk profiling processes and the processes of shaping and improving enterprise resilience After reading the book the readers will firstly gain theoretical knowledge of risk management in non crisis and crisis conditions risk mitigation and risk profiling Secondly they will also acquire the practical skills of performing risk profiling identifying risk mitigation actions perceiving relationships between individual enterprises risk profiles and their changes and the building and improving of their resilience The inclusion of graphics tables diagrams charts instructions and recommendations will make the content is also easy to understand for a non specialist audience This book will be of great interest entrepreneurs managers and risk management professionals who can use the content included in the book in their management processes as well as stakeholders of various enterprises business and academic communities and students of all levels The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Comparative Causal**

Mapping Mauri Laukkanen, Mingde Wang, 2016-03-03 Comparative Causal Mapping The CMAP3 Method by Mauri Laukkanen and Mingde Wang is an introduction to the conceptual backgrounds of causal cognitive mapping and to the typical methods in comparative and composite causal mapping based on either interview or questionnaire primary data or on secondary documentary data The discussed CCM research is supported by CMAP3 a freely downloadable www.uefi.fi/cmap3 Windows software platform for CCM studies The book has three parts The first discusses the theoretical underpinnings and methodological issues in causal mapping including the target phenomena and different interpretations of causal maps

mapping the motives for using CCM methods and the criteria of method selection The second part focuses on the technical aspects of using CMAP3 in typical CCM research The third part presents three CCM study cases a classical document based study a semi structured interview based SIM study and a methodological study comparing SIM with an electronically administered structured hybrid CCM approach In addition to demonstrating CCM practices they suggest that different methods produce divergent results and are thus not substitutable The research task should determine which CCM approach is appropriate The book will appeal to both academic and professional audiences in particular to doctoral students and experienced researchers looking for new topics and method approaches but also to practitioners in fields such as management and organization studies organizational development public policy and education and knowledge management

Once Upon a Time in Facilities Management Patricia McCarroll, John Hassard, 2024-09-23 What would the world of work look like if interpreted through the lens of the fairytale To answer this question *Once Upon a Time in Facilities Management* explores storied spaces and metaphorical archetypes in the study of business management and organization At its core the authors offer a diagnostic approach for the study of work organization that links management theory storytelling and the business imaginary An important empirical focus is also included that explores a business service rarely studied in the management literature *Facilities Management FM* a secondary service of non core and increasingly outsourced organizational functions An in depth appreciation of FM is provided that assesses the people practices and processes of the service in a study that also highlights the characteristic liminality of the sector s professional activities Emphasis is placed on illuminating the storytelling nature of the service using primarily the genre of fairytales to identify representational archetypes including queen shadow sage trickster adventurer and eternal child within FM s storied space In the process three central characters essentially modes of FM delivery are identified the professional consultant the external service provider and the in house function with these forming the structural basis of fairytales explaining the culture and symbolism of FM as a business service The authors conclude by extrapolating findings from the study to inform a discussion of the contributions of folkloric analysis to organization theory explicitly and our understanding of business and management practice more widely

Information Science Research Ngulube, Patrick, 2019-12-13 In today s globalized world viable and reliable research is fundamental for the development of information Innovative methods of research have begun to shed light on notable issues and concerns that affect the advancement of knowledge within information science Building on previous literature and exploring these new research techniques are necessary to understand the future of information and knowledge The Handbook of Research on Connecting Research Methods for Information Science Research is a collection of innovative

research on the methods and application of study methods within library and information science While highlighting topics including data management philosophical foundations and quantitative methodology this book is ideally designed for librarians information science professionals policymakers advanced level students researchers and academicians seeking current research on transformative methods of research within information science *Challenging Entrepreneurship Research* Hans Landstrom,Annaleena Parhankangas,Alain Fayolle,Philippe Riot,2016-06-10 The growth of entrepreneurship research has been accompanied by an increased convergence and institutionalization of the field In many ways this is of course positive but it also represents how the field has become mainstream with the concomitant risk that individual scholars become embedded in a culture and incentive system that emphasizes and rewards incremental research questions while reducing the incentives for scholars to conduct challenging research This book challenges this status quo from accepted theories methodologies and paradigmatic assumptions to the relevance or lack of for contemporary practice and the impact of key journals on scholars directions in entrepreneurship research An invited selection of the younger generation of scholars within the field of entrepreneurship research adopt a critical and constructive posture on what has been achieved in entrepreneurship research the main assumptions which underly it but also open up new paths for creative entrepreneurship research in the future This is a must read for all scholars educators and advanced students in entrepreneurship research

The Quest for Professionalism Georges Romme,2016-01-29 Early pioneers in management thinking such as Henri Fayol and Peter Drucker conceived of management as a science based professional activity that serves the greater good Today however many organizations are managed by people demonstrating anything but professionalism resulting in mismanagement of risks as well as a one dimensional focus on short term results The key thesis in this book is that The Quest for Professionalism must be revitalized because the societal costs and damage caused by managerial amateurism are huge The book is about how to address this grand challenge for example by exploring whether and how a shared professional purpose and a professional body of knowledge can be developed While most work in this area has previously focused on management education The Quest for Professionalism adopts an inside out approach implying management scholarship is the driving force behind any intrinsic transformation of the profession at large Without management scholars playing an active role in advancing science based professionalism in the mould of engineering and medicine any attempt to professionalize management practice is doomed to fail Moreover Georges Romme demonstrates the professionalization quest has to move away from the idea of management being confined to a few people at the top toward management as a technology for distributing power and leadership throughout the organization
