ZOLBERG,Aristide R Zolberg,2009-06-30 According to the national mythology the United States has long opened its doors to

people from across the globe providing a port in a storm and opportunity for any who seek it Yet the history of immigration to the United States is far different Even before the xenophobic reaction against European and Asian immigrants in the late nineteenth century social and economic interest groups worked to manipulate immigration policy to serve their needs In *A Nation by Design* Aristide Zolberg explores American immigration policy from the colonial period to the present discussing how it has been used as a tool of nation building *A Nation by Design* argues that the engineering of immigration policy has been prevalent since early American history However it has gone largely unnoticed since it took place primarily on the local and state levels owing to constitutional limits on federal power during the slavery era Zolberg profiles the vacillating currents of opinion on immigration throughout American history examining separately the roles played by business interests labor unions ethnic lobbies and nativist ideologues in shaping policy He then examines how three different types of migration legal migration illegal migration to fill low wage jobs and asylum seeking are shaping contemporary arguments over immigration to the United States *A Nation by Design* is a thorough authoritative account of American immigration history and the political and social factors that brought it about With rich detail and impeccable scholarship Zolberg s book shows how America has struggled to shape the immigration process to construct the kind of population it desires [Somebody's Children](#) Laura Briggs,2012-03-07 A feminist historian and an adoptive parent Laura Briggs gives an account of transracial and transnational adoption from the point of view of the mothers and communities that lose their children [The First Amerasians](#) Yuri W. Doolan,2024 During the 1950s thousands of mixed race children were born to US servicemen and local Korean women in US occupied South Korea Assumed to be the progeny of camptown women or military prostitutes their presence created a major problem for the image of US democracy in the world at a time when the nation was vying for Cold War allegiances abroad As mixed race children became a discernible population around US military encampments in South Korea communists seized upon the image of those left behind by their GI fathers as evidence of US imperialism irresponsibility and immorality in the Third World Aware of this and keen to redeem the image of America s intervention in Asia US citizens spearheading the postwar recovery of recently war torn South Korea embarked upon a campaign in US Congress to bring as many of these children home By the early 1960s American philanthropists missionaries and voluntary agencies had succeeded in constructing the figure of the abandoned and mistreated Amerasian orphan to lobby US Congress for the quick passage of intercountry adoption laws They also gained the sympathies of American families eager to welcome these racially different children into the intimate confines of their homes Although the adoptions of Korean Amerasian children helped to promote an image of humanitarian rescue and Cold War racial liberalism in 1950s and 1960s America there was one other problem many of these children were not actually orphans but had been living with their Korean mothers in the camptown communities surrounding US military bases prior to adoption Their placements into American families relied upon dehumanizing constructions of these women as hardened prostitutes who did not even love their own children

South Korea as a backwards racist society bent up on Confucian tradition and pure bloodlines and the United States as a welcoming home in an era of intense racial segregation The First Amerasians tells the powerful oftentimes heartbreaking story of how Americans created and used the concept of the Amerasian to remove thousands of mixed race children from their Korean mothers to adoptive US homes during the 1950s and 1960s In doing so Yuri W Doolan reveals how the Amerasian is not simply a mixed race person fathered by a US serviceman in Asia nor a racial term used to describe individuals with one American and one Asian parent like its popular definition suggests Rather the Amerasian is a Cold War construct whose rescue has been utilized to repudiate accusations of US imperialism and achieve sentimental victories in the aftermath of wars not quite won by the military From such constructions Americans lobbied Congress twice first in the 1950s to establish international adoption laws that would lead to the placement of hundreds of thousands of Korean children in the United States then later in the 1980s when the plight of mixed race Koreans would be invoked again to argue for Amerasian immigration laws culminating in the migrations of tens of thousands of mixed race Vietnamese and their relatives Beyond Cold War historiography this book also shows how in using the figure of the mistreated and abandoned Amerasian in need of rescue Americans caused harm to actual people mixed race Koreans and their mothers specifically as children were placed into adoptive homes during an era where few regulations or safeguards existed to protect them from abuse negligence or racial hostilities in the US and many Korean mothers were coerced both physically and monetarily to relinquish their children to American authorities

Children of Reunion Allison Varzally, 2017-02-01 In 1961 the U S government established the first formalized provisions for intercountry adoption just as it was expanding America s involvement with Vietnam Adoption became an increasingly important portal of entry into American society for Vietnamese and Amerasian children raising questions about the United States obligations to refugees and the nature of the family during an era of heightened anxiety about U S global interventions Whether adopting or favoring the migration of multiracial individuals Americans believed their norms and material comforts would salve the wounds of a divisive war However Vietnamese migrants challenged these efforts of reconciliation As Allison Varzally details in this book a desire to redeem defeat in Vietnam faith in the nuclear family and commitment to capitalism guided American efforts on behalf of Vietnamese youths By tracing the stories of Vietnamese migrants however Varzally reveals that while many had accepted separations as a painful strategy for survival in the midst of war most sought and some eventually found reunion with their kin This book makes clear the role of adult adoptees in Vietnamese and American debates about the forms privileges and duties of families and places Vietnamese children at the center of American and Vietnamese efforts to assign responsibility and find peace in the aftermath of conflict

Benefiting from recently catalogued archival materials *The Flip Side* Old China Hands and the American Popular Imagination 1935 1985 evaluates the influence of an ensemble of well known Americans born or bred in China Pearl S Buck Henry R Luce Owen Lattimore and John Hersey after their return to the United States of America The children of missionaries and others serving China all contributed in significant ways to the globalisation of the American ideal in the 20th century even as each sought in different roles as publishers as novelists as scholars to centre Chinese values and concerns in the anglophone public sphere As Chinese ideas and values met the projection of American soft power and governmentality a uniquely bilateral global imaginary arose wherein respect for China as an emerging force encountered Western reaction For these old China hands the return to the USA resulted in unique and differing sociocultural formations Buck s intersectional literary populism on behalf of the Chinese people Henry R Luce s press internationalism Lattimore s inner Asian regional imaginaries and Hersey s China trilogy allegories All were keen observers of and participants in international networks combining a diversity of China based expertise and resources that continued to inform their everyday work at a great distance Both public and private these networks onshore and off enabled and energised their own advocacy that dared to imagine a Chinese future distinct from its colonial or semi feudal past *The Flip Side* asserts that these American stakeholders occupied a transitional but crucial role in the rise of China in Western imagination prior to China s assertion of sovereignty over its own global role and message **My Dear Boy** Joanie Holzer Schirm,2019-03-01 After the death of Joanie Holzer Schirm s parents in 2000 she found hundreds of letters held together by rusted paperclips and stamped with censor marks sent from Czechoslovakia Great Britain China and South and North America along with journals vintage film taped interviews and photographs In working through these various materials documenting the life of her father Oswald Valdik Holzer she learned of her family history through his remarkable experiences of exile and loss resilience and hope In this posthumous memoir Schirm elegantly re creates her father s youthful voice as he comes of age as a Jew in interwar Prague escapes from a Nazi held army unit practices medicine in China s war ravaged interior and settles in the United States to start a family Introducing us to a diverse cast of characters ranging from the humorous to the menacing Holzer s life story is an inspirational account of survival during wartime a cinematic epic spanning multiple continents and ultimately a tale with a twist a book that will move readers for generations to come Purchase the audio edition **Suffer the Little Children** Anita Casavantes Bradford,2022-03-28 In this affecting and innovative global history starting with the European children who fled the perils of World War II and ending with the Central American children who arrive every day at the U S southern border Anita Casavantes Bradford traces the evolution of American policy toward unaccompanied children At first a series of ad hoc Cold War era initiatives such policy grew into a more broadly conceived set of programs that claim universal humanitarian goals But the cold reality is that decisions about which endangered minors are allowed entry to the United States have

always been and continue to be driven primarily by a geopolitics of compassion that imagines these children essentially as tools of political statecraft Even after the creation of the Unaccompanied Refugee Minors program in 1980 the federal government has failed to see migrant children as individual rights bearing subjects The claims of these children especially those who are poor nonwhite and non Christian continue to be evaluated not in terms of their unique circumstances but rather in terms of broader implications for migratory flows from their homelands This book urgently demonstrates that U S policy must evolve in order to ameliorate the desperate needs of unaccompanied children A War Born Family Kori A. Graves,2020-01-28 The origins of a transnational adoption strategy that secured the future for Korean black children The Korean War left hundreds of thousands of children in dire circumstances but the first large scale transnational adoption efforts involved the children of American soldiers and Korean women Korean laws and traditions stipulated that citizenship and status passed from father to child which made the children of US soldiers legally stateless Korean black children faced additional hardships because of Korean beliefs about racial purity and the segregation that structured African American soldiers lives in the military and throughout US society The African American families who tried to adopt Korean black children also faced and challenged discrimination in the child welfare agencies that arranged adoptions Drawing on extensive research in black newspapers and magazines interviews with African American soldiers and case notes about African American adoptive families A War Born Family demonstrates how the Cold War and the struggle for civil rights led child welfare agencies to reevaluate African American men and women as suitable adoptive parents advancing the cause of Korean transnational adoption Enhancing the Homecoming DIANE Publishing Company,1994-04
