The Rights of the Defenseless Susan J. Pearson, 2011-07-15 In this work Pearson seeks to understand the institutional cultural legal and political significance of the perceived bond between animals and children and the attempts made to protect them

Statebuilding from the Margins Carol Nackenoff, Julie Novkov, 2014-01-06 The period between the Civil War and the New Deal was particularly rich and formative for political development Beyond the sweeping changes and national reforms for which the era is known *Statebuilding from the Margins* examines often overlooked cases of political engagement that expanded the capacities and agendas of the developing American state With particular attention to gendered classed and racialized dimensions of civic action the chapters explore points in history where the boundaries between public and private spheres shifted including the legal formulation of black citizenship and monogamy in the postbellum years the racial politics of Georgia s adoption of prohibition the rise of public waste management the incorporation of domestic animal and wildlife management into the welfare state the creation of public juvenile courts and the involvement of women s groups in the creation of U S housing policy In many of these cases private citizens or organizations initiated political action by framing their concerns as problems in which the state should take direct interest to benefit and improve society *Statebuilding from the Margins* depicts a republic in progress accruing policy agendas and the institutional ability to carry them out in a nonlinear fashion often prompted and powered by the creative techniques of policy entrepreneurs and organizations that worked alongside and outside formal boundaries to get results These Progressive Era initiatives established models for the way states could create intervene in and regulate new policy areas innovations that remain relevant for growth and change in contemporary American governance Contributors James Greer Carol Nackenoff Julie Novkov Susan Pearson Kimberly Smith Marek D Steedman Patricia Strach Kathleen Sullivan Ann Marie Szymanski

Modern Persecution, Or Married Woman's Liabilities Elizabeth Parsons Ware Packard, 1874

Chemistry of Mental Archetypes Lukas Jaeckel, This hermetic Theory of Everything is called Chemistry of Mental Archetypes It includes a description of the oppositional and dialectical nature of all things through universal archetypes Chemistry is about mixing elements of the physical world and here this notion is carried further to define the chemistry of mixing elements of the mental world Archetypes are universally valid concepts and categories that recur independently of space and time and can be recognized by the mind The archetypes used in this metaphysics are categories such as order and chaos wholeness and detail law and value egoism and altruism and so on These

are connected across a fluid spectrum and divided into elements These elements are then brought together in different syntheses and the relationships between them are analyzed This framework uses the Philosopher s Stone as a universal formula which describes the basic structure of all possibilities It brings together common patterns that recur across states of matter states of mind political ideologies evolution structure of reality mathematics and more An important aspect of this metaphysics is the evolution of mind and morality The sum of all possibilities lies in a spectrum between order and chaos Individual morals and states of mind develop through this passive underlying framework All things that we can observe in material reality are only volatile manifestations that are not permanent In the negative framework of universal archetypes we find patterns that are eternally true and do not change This book serves to guide the reader into this eternally resting realm of the dead and never changing archetypes to the point where maybe even the eternal self can be recognized as a silent observer in the mind Modern Persecution, Or Insane Asylums Unveiled, Elizabeth Parsons Ware Packard,1874

Modern Persecution Elizabeth Parsons Ware Packard,1873 **An Ethical Guidebook to the Zombie Apocalypse** Bryan Hall,2019-12-12 When your base camp is overrun by zombies whom do you save if you cannot save everyone Is it permissible to sacrifice one survivor to an undead horde in order to save a greater number of the living Do you have obligations to loved ones who have turned These are some of the troubling ethical questions you might face in a zombie apocalypse Bryan Hall uses situations like these to creatively introduce the foundational theories of moral philosophy Covering major thinkers such as Aristotle Immanuel Kant and John Stuart Mill this is an introduction to Ethics like no other a practical guidebook for surviving a zombie outbreak with your humanity intact It shows you why moral reasoning matters as long as you still walk among the living The book is written entirely from the perspective of someone struggling to survive in a world overrun by the undead Each chapter begins with graphic art and a field exercise that uses a story from this world to illustrate an ethical problem By considering moral controversies through the unfamiliar context of a zombie apocalypse the morally irrelevant factors that get in the way of resolving these controversies are removed and you can better answer questions such as Do we have a moral obligation to help those less fortunate than ourselves Is it ever morally permissible to intentionally kill an innocent person Are non rational but sentient beings morally considerable Equipped with further reading sections and overviews of the theories that you would usually cover in an introductory Ethics course this one of a kind primer critically evaluates different procedures for moral action that you can use not only to survive but flourish in an undead world

Women and Justice for the Poor Felice Batlan,2015-04-16 This book re examines fundamental assumptions about the American legal profession and the boundaries between professional lawyers lay lawyers and social workers Putting legal history and women s history in dialogue it demonstrates that nineteenth century women s organizations first offered legal aid to the poor and that middle class women functioning as lay lawyers provided such assistance Felice Batlan illustrates that by the early twentieth century male lawyers founded their own legal aid societies These new legal aid lawyers created an

imagined history of legal aid and a blueprint for its future in which women played no role and their accomplishments were intentionally omitted In response women social workers offered harsh criticisms of legal aid leaders and developed a more robust social work model of legal aid These different models produced conflicting understandings of expertise professionalism the rule of law and ultimately the meaning of justice for the poor Modern Persecution E. Packard,2012-03-08 Patriotism Igor Primoratz,2016-05-13 Economic and cultural globalization and the worldwide threat of terrorism have contributed to the resurgence of patriotic loyalty in many parts of the world and made the issues it raises highly topical This collection of new essays by philosophers and political theorists engages with a wide range of conceptual moral and political questions raised by the current revival of patriotism It displays both similarities and differences between patriotism and nationalism and considers the proposal of Habermas and others to disconnect the two Ideal as a supplementary reader for undergraduate and postgraduate courses in politics political science especially in political theory contemporary political ideologies and nationalism and in philosophy for courses on applied ethics and political philosophy

Herring,2015-12-03 *Everyday Law for Children* provides an accessible introduction to laws that affect children and families and the dominant public debates that surround and drive these laws Using real world examples the book exposes the tension between reliance on the private autonomous family and the public s desire to secure child well being A look at some public systems such as child welfare and juvenile delinquency shows that an initial public aspiration to assist children and families is often frustrated by a lack of resolve and resources In other areas such as education and healthcare

the public shrinks from a commitment to comprehensive child well being Everyday Law for Children makes a case for the improvement of public systems by focusing on pragmatic goals related to child well being More immediately it makes a case for zealous advocates for children who can have a dramatic impact on children s everyday lives Accordingly the book provides an annotated list of resources and contact information for parents and for service providers who need help addressing specific problems within complex public systems
