The Routledge Handbook of Mobilities Peter Adey, David Bissell, Kevin Hannam, Peter Merriman, Mimi Sheller, 2014-01-10

The 21st century seems to be on the move perhaps even more so than the last. With cheap travel and more than two billion cars projected worldwide for 2030, and yet all this mobility is happening incredibly unevenly at different paces and intensities with varying impacts and consequences to the extent that life on the move might be actually quite difficult to sustain environmentally, socially and ethically. As a result, mobility has become a keyword of the social sciences, delineating a new domain of concepts, approaches, methodologies and techniques which seek to understand the character and quality of these trends. This Handbook explores and critically evaluates the debates, approaches, controversies and methodologies inherent to this rapidly expanding discipline. It brings together leading specialists from a range of backgrounds and geographical regions to provide an authoritative and comprehensive overview of this field, conveying cutting edge research in an accessible way whilst giving detailed grounding in the evolution of past debates on mobilities. It illustrates disciplinary trends and pathways from migration studies and transport history to communications research, featuring methodological innovations and developments and conceptual histories from feminist theory to tourist studies. It explores the dominant figures of mobility from children to soldiers and the mobility impaired, the disparate materialities of mobility such as flows of water and waste to the vectors of viruses, key infrastructures such as logistics systems to the informal services of megacity slums and the important mobility events around which our world turns from going on vacation to the commute to the catastrophic disruption of mobility systems. The text is forward thinking, projecting the future of mobilities as they might be lived, transformed and studied, and possibly brought to an end. International in focus, the book transcends disciplinary and national boundaries to explore mobilities as they are understood from different perspectives, different fields, countries and standpoints. This is an invaluable resource for all those with an interest in mobility across disciplinary boundaries and areas of study.

Law, Migration, and Human Mobility Magdalena Kmak, 2023-09-14 This book analyses the multifaceted ways law operates in the context of human mobility as well as the ways in which human mobility affects law Migration law is conventionally understood as a tool to regulate human movement across borders and to define the rights and limits related to this movement But drawing upon the emergence and development of the discipline of mobility studies this book pushes the idea of migration law towards a more general concept of mobility that encompass the various processes effects and consequences of movement in a globalized world In this respect the book pursues a shift in perspective on how law is understood Drawing on the concepts of kinology and kinopolitics developed by Thomas Nail as well as mobility justice developed by Mimi Sheller the book considers movement and motion as a constructive force behind political and social systems and hence stability that needs to be explained and justified Tracing the processes through which static forms such as state citizenship or border are constructed and how they partake in production of differential mobility the book challenges the conventional understanding of migration law More specifically and in revealing its contingent and unstable nature the book reveals how human mobility is itself constitutive of law This interdisciplinary book will appeal to those working in the areas of migration and refugee law citizenship studies mobility studies legal theory and sociolegal studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Funded by University of Helsinki and bo Akademi University

Women Writers of the New African Diaspora Pauline Ada Uwakweh, 2022-12-30 This book makes a significant addition to the field of literary criticism on African Diaspora literatures In one volume it brings together the novels of eight transnational African Diaspora women writers Yaa Gyasi Chika Unigwe Chimamanda Adichie Imbolo Mbembe NoViolet Bulawayo Aminatta Forna Taiye Selasi and Leila Aboulela and positions them as chroniclers of African immigrant experiences The book inspires critical readings of these writers works by revealing emerging trends in women's literature as they are being determined and redefined by immigration As transnational subjects the writers engage various meanings of mobility and exhibit innovative aesthetic styles they create awareness on gender

identities and transformations constructions of home and belonging as well as the politics of citizenship in the hostland The book also highlights the importance of reverse migrations and performance returns to the homeland as an expression of human desire for home and belonging and taken as a whole it enhances our understanding of how migration and transnational existence are re shaping immigrant subjects This book will be of interest to scholars students and researchers of African Diaspora literatures and gender studies who will find this book beneficial for investigating critical trends approaches to transnational literature and for comprehending the diasporic burdens that transnational immigrants bear

Freudendal-Pedersen, Sven Kesselring, Nikolaj Grauslund Kristensen, 2020-08-28 Reflecting the variety and diversity of mobile methods and their applications this comprehensive Handbook illuminates the multiple dimensions and transdisciplinary nature of mobilities research from transport to tourism cargo to information as well as physical virtual and imaginative mobilities It brings together key contributions on the state of the art of qualitative and quantitative research multimethod combinations and co creation methods within the mobilities paradigm

Mobilities and Human Possibility Vlad Petre Glăveanu, 2020-08-26 This book brings together mobilities and possibility studies by arguing that the possible emerges in our experience in and through acts of movement physical social and symbolic The basic premise that mobility begets possibility is supported with evidence covering a wide range of geographic and temporal scales First in relation to the evolution of our species and the considerable impact of mobility on the emergence and spread of prehistoric innovations second considering the circulation of people things and creative ideas throughout history third in view of migrations that define an individual life course and its numerous im possibilities and fourth in the inner psychological movements specific for our wandering and wondering minds This is not however a romantic account of how more mobility is always better or leads to increased creativity and innovation After all movement can fail in opening up new possibilities and innovations can cause harm or reduce our agency And yet at an ontological level the fact remains that it is only by moving from one position to another that we develop novel perspectives on the world and find alternative ways of acting and being At this foundational level mobilities engender possibilities and the latter in turn fuel new mobilities This interplay examined throughout the book should be of interest for researchers and practitioners working on mobility migration creativity innovation cultural diffusion life course approaches and more generally on the possibilities embedded in mobile lives

A U-Turn to the Future Martin Emanuel, Frank Schipper, Ruth Oldenziel, 2020-02-03 From local bike sharing initiatives to overhauls of transport infrastructure mobility is one of the most important areas in which modern cities are trying to realize a more sustainable future Yet even as politicians and planners look ahead there remain critical insights to be gleaned from the history of urban mobility and the unsustainable practices that still impact our everyday lives United by their pursuit of a usable past the studies in this interdisciplinary collection consider the ecological social and economic aspects of urban mobility showing how historical inquiry can make both conceptual and practical contributions to the projects of sustainability and urban renewal

Tourism and Memories of Home Sabine Marschall, 2017-02-03 This book investigates home and homeland as destinations of touristic journeys and adds to recent scholarly interest in the intersection between tourism and migration It covers the temporary visits and journeys in search of home and homelands by migrants displaced people exiles and diasporic communities in a wide range of different geographical and historical contexts Personal and collective forms of memory are shown to play a key role in the motivation for and experience of such journeys The volume contributes to the investigation of the tourism memory nexus as it conceptualizes memory as underpinning touristic mobility experience and performativity Based on ethnographic case studies and other types of qualitative empirical research the chapters of this book foreground individual touristic experiences emotions memories perceptions the search for identity and a sense of belonging The book will be of interest to students and researchers in the fields of tourism heritage anthropology identity studies memory studies and migration diaspora studies

Empire and mobility in the long nineteenth century David Lambert, Peter Merriman, 2020-06-08 Mobility was central to imperialism from the human movements entailed in exploration travel and migration to the information communications and commodity flows vital to trade science governance and military power While historians have written on exploration commerce imperial transport and communications networks and the movements of slaves soldiers and scientists few have reflected upon the social cultural economic and political significance of mobile practices subjects and infrastructures that underpin imperial networks or examined the qualities of movement valued by imperial powers and agents at different times This collection explores the intersection of debates on imperial relations colonialism and empire with emerging work on mobility In doing this it traces how the movements of people representations and commodities helped to constitute the British empire from the late eighteenth century through to the Second World War

Mobility Justice Mimi Sheller, 2018-09-25 Mobility justice is one of the crucial political and ethical issues of our day We are in the midst of a global climate crisis and experiencing the extreme challenges of urbanization In *Mobility Justice* Mimi Sheller makes a passionate argument for a new understanding of the contemporary crisis of movement Sheller shows how power and inequality inform the governance and control of movement She connects the body street city nation and planet in one overarching theory of the modern perpetually shifting world Concepts of mobility are examined on a local level in the circulation of people resources and information as well as on an urban scale with questions of public transport and the right

to the city On the planetary level she demands that we rethink the reality where tourists and other elites are able to roam freely while migrants and those most in need are abandoned and imprisoned at the borders Mobility Justice is a new way to understand the deep flows of inequality and uneven accessibility in a world in which the mobility commons have been enclosed It is a call for a new understanding of the politics of movement and a demand for justice for all

Reciprocal Mobilities Mark Dizon, 2023-09-12 Throughout the eighteenth century independent Indigenous people from the borderlands of the Philippines visited the centers of Spanish colonial rule in the archipelago Their travels are the counternarratives to one dimensional stories of Spanish conquest of and Indigenous resistance in interior frontiers Indigenous inhabitants on the island of Luzon constantly moved about visiting allies and launching raids and thus shaped history in the process Their mobility allows us to glimpse their agency in colonial interactions in the early modern period The landscape contains the traces of how they moved as well as how they channeled and impeded mobility in the borderlands Mark Dizon views the colonial interactions in Philippine borderlands through the lens of reciprocal mobilities Spanish mobilities of conquests and conversions had their counterpart in Indigenous visits and ambushes Colonial encounters were not isolated individual events but rather a connected web of approaches rebuffs rapprochements and dispersals They took place not only in the exploration of remote forests and mountains but also in conjunction with Indigenous travels to colonial cities like Manila Indigenous people of the borderlands were not immobile timeless actors they created history in their wake as they journeyed through the borderlands and beyond

Cultural Mobilities Between China and Italy Valentina Pedone, Gaoheng Zhang, 2023-10-11 This book offers a critical analysis of global mobilities across China and Italy in history In three periods in the twentieth century new patterns of physical mobilities and cultural contact were established between the two countries which were either novel at the time of their emergence or impactful on subsequent periods The first two chapters provide overviews of writings by Italians in China and by Chinese in Italy in the twentieth century The remaining chapters cover Republican China s relationships with Italy and Italian Fascist colonialism in China during the 1920s 1930s Italian travelers to China during the Cold War from the 1950s to the 1970s migrations between China and Italy during the 2000s 2010s In analyzing these cultural mobilities this book opens a new line of inquiry in Chinese Italian Cultural Studies which has been dominated by historical study and contributes a significant case study to the scholarship on global cultural mobilities

The Top Books of the Year The Routledge Handbook Of Mobilities Routledge Handbooks The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the fascinating narratives that have enthralled audiences this year. The Routledge Handbook Of Mobilities Routledge Handbooks : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
