Agriculture, Economy and Society in Early Modern Scotland Robert Allan Houston, 2024 Showcases the latest research on Scotland's rural economy and society Early modern Scotland was predominantly rural Agriculture was the main occupation of most people at the time so what happened in the countryside was crucial economically socially and culturally The essays collected here focus on the years between around 1500 and 1750 This period although before the main era of agricultural improvement in the late eighteenth and early nineteenth centuries was nevertheless far from static in terms of agrarian development Specific topics addressed include everyday farming practices investment landlords tenants and estate management and the cultural context within which agriculture was imagined The disastrous famine of 1622-23 is analysed in detail The volume is completed by a comprehensive survey of recent historiography setting agricultural history in its broader context

Shakespeare and the 99% Sharon O'Dair, Timothy Francisco, 2019-02-08 Through the discursive political lenses of Occupy Wall Street and the 99% this volume of essays examines the study of Shakespeare and of literature more generally in today's climate of educational and professional uncertainty Acknowledging the problematic relationship of higher education to the production of inequity and hierarchy in our society essays in this book examine the profession our pedagogy and our scholarship in an effort to direct Shakespeare studies literary studies and higher education itself toward greater equity for students and professors Covering a range of topics from diverse positions and perspectives these essays confront and

question foundational assumptions about higher education and hence society including intellectual merit and institutional status These essays comprise a timely conversation critical for understanding our profession in post Occupy America The Origins of Capitalism and the "rise of the West" Revisited Eric Mielants,2001 *New Directions in Uneven and Combined Development* Justin Rosenberg,Jack Brake,Tatiana Pignon,Lucas de Oliveira Paes,2021-11-28 This book introduces Uneven and Combined Development as an approach in international studies and showcases some of the latest and most innovative research in this field The theory of Uneven and Combined Development originated in the writings of Leon Trotsky However in recent years it has become the subject of flourishing literature in the discipline of International Relations due to its unique ability to reintegrate social and international theory The first and second generations of this literature were focused upon retrieving the idea expanding it into a social theory of the international and applying it to numerous empirical cases such as the rise of political Islam the causes of the First World War and the Bolshevik Revolution and even the origins of capitalism as a world system In the present volume a third generation has arrived which further extends the reach of UCD connecting it in new and exciting ways to such subjects as ecology macro economic policy culture Science and Technology Studies Comparative Literature and even science fiction The chapters in this book were originally published in the journal the Cambridge Review of International Affairs

A World Art History and Its Objects David Carrier,2008-11-28 Is writing a world art history possible Does the history of art as such even exist outside the Western tradition Is it possible to consider the history of art in a way that is not fundamentally Eurocentric In this highly readable and provocative book David Carrier a philosopher and art historian does not attempt to write a world art history himself Rather he asks the question of how an art history of all cultures could be written or whether it is even possible to do so He also engages the political and moral issues raised by the idea of a multicultural art history Focusing on a consideration of intersecting artistic traditions Carrier negotiates the way meaning and understanding shift or are altered when a visual object from one culture for example is inserted into the visual tradition of another culture A World Art History and Its Objects proposes the use of temporal narrative as a way to begin to understand a multicultural art history

The Rise of the Rich Peter Gran,2009-02-10 The rise of the west has long been the accepted doctrine for framing analysis for world history Privileging a Eurocentric approach this traditional paradigm obscures the significance of the indigenous rich in non Western regions and fails to recognize the contributions of the Orient In this book Peter Gran seeks to reframe current historical debates presenting a model of analysis based on the rise of the rich Gran outlines the structure of this new paradigm building upon meta narrative concepts from Marxism to liberalism Rather than a history of clashing civilizations he identifies a history of resolving conflicts through negotiations among wealthy classes in various regions Fundamental to his theory is the assumption of non European ruling classes with power in interregional affairs Far reaching

in its historical scope Gran's work lays the foundation for a critical rethinking of world history and offers a vital contribution to the field

Political Competition, Innovation and Growth in the History of Asian Civilizations Peter Bernholz, Roland Vaubel, 2004-01-01 Do political decentralisation and inter state competition favour innovation and growth There has long been a lively debate surrounding this question going back to David Hume and Immanuel Kant This book is a new attempt to test its veracity The existin

The Rise and Fall of Britain's North American Empire Gerald Pollio, 2022-09-29 This book explores the economic factors that led to Britain forfeiting its North American colonies Placing discussions within both a historical and political context the development of the colonial economy is examined in relation to both slavery and the industrial revolution In turn changes to British tax policy post 1760 and the increased burden placed on American taxpayers are detailed alongside the resentment and resistance to them These factors as well as nonimportation agreements and boycotts are highlighted as the major motivations for the American Revolution This book aims to provide an accessible foundation to the economic and political issues central to Britain's colonial activities in North America It will be relevant to students and researchers interested in the political economy and economic history
