Movement, Manifesto, Melee Milton A.

Cohen, 2004-09-14 The years before World War I were a fertile period for artists in Europe and the United States who were challenging aesthetic convention in music writing and the visual arts These early pioneers of modernism sometimes preferred to work alone but just as often they were associated with groups whose boundaries were permeable and freely changing While these individual groups including the Futurists Imagists Blue Rider and the Second Vienna School have been thoroughly studied scholars of the period have often neglected the formative and pervasive interactions of these groups across geographic and artistic boundaries Providing a historical taxonomy of this influential milieu Milton Cohen demonstrates how these groups were largely responsible for the artistic innovation and nearly all the avant garde agitation and major events of these years With concluding appendices intended for scholars and specialists this engagingly written book will be useful not only for classroom use and scholarly research but will appeal to anyone interested in reading a fresh approach to the history of early modernism

Tracing German Visions of Eastern Europe in the Twentieth Century Jenny Watson, Michel Mallet, Hanna Schumacher, 2022

Reconsidering the German tendency to define itself vis-à-vis an eastern Other in light of fresh debate regarding the Second World War, this volume exposes and questions Germany's relationship with its imagined East. Germany has long defined itself in opposition to its eastern neighbors; its ideas around cultural prestige and its expressions of xenophobia seem inevitably to return to an imagined eastern Other. Central to the consideration of such projections is the legacy of the Second World War, the subject of fresh debate since 1989. After four decades of political antagonism and cultural disjuncture, the events of the war on the Eastern Front have been rediscovered by Western audiences and have come to occupy complex, shifting positions in the memory culture of the post-socialist states. However, German ignorance of Eastern European experiences of war and genocide, enduring stereotypes, and prescriptive ideas about remembrance have been major stumbling blocks to the emergence of a transnational memory culture, considered just by all parties. Despite mass immigration to Germany from the east and intensive contact between German speakers and its cultures, German language cultural production continues largely to represent Eastern Europe as unknown, wild, and inaccessible. By contrast, the writers and filmmakers under discussion in the present volume have worked with and against such tropes to put forward alternative perspectives. Like their works, the contributions to this volume place the conflicts and prejudices of the twentieth century into a wider historical perspective, exposing and questioning the nature of Germany's relationship with its imagined East.

The Fontane Workshop Petra S. McGillen, 2019-07-25 Winner of the Aldo and Jeanne Scaglione Prize for Studies in Germanic Languages and Literatures Awarded by the MLA With an innovative approach that combines material media history media theory and literary poetics this book reconstructs the great German writer Theodor Fontane s creative process Petra McGillen follows Fontane into the engine room of his text production Analyzing a wealth of unexplored archival evidence which includes a collection of the author s 67 extant notebooks along with an array of other paper tools such as cardboard boxes envelopes and slips McGillen

demonstrates how Fontane compiled his realist prose works That is he assembled them from premediated sources literally with scissors and glue in an extraordinarily inorganic and radically intertextual manner that turned writing into a process of ongoing remix By exploring the far reaching implications of Fontane s creative practices for our understanding of his authorship originality and poetics this book opens up a completely new way to think about his works and by extension 19th century literary realism This conceptualization of authors notebooks as creative tools makes a substantial contribution to scholarship on the history of writing media in several disciplines from German studies and literary studies to media history and to our understanding of the relationship between mass media and literary creativity in the late 19th century **German**

Gender, Collaboration, and Authorship in German Culture John B. Lyon,Laura DeJulio,2019-08-22 Gender Collaboration and Authorship in German Culture challenges a model of literary production that persists in literary studies the so called Geniekult or the idea of the solitary male author as genius that emerged around 1800 in German lands A closer look at creative practices during this time indicates that collaborative creative endeavors specifically joint ventures between women and men were an important mode of literary production during this era This volume surveys a variety of such collaborations and proves that male and female spheres of creation were not as distinct as has been previously thought It demonstrates that the model of the male genius that dominated literary studies for centuries was not inevitable that viable alternatives to it existed Finally it demands that we rethink definitions of an author and a literary work in ways that account for the complex modes of creation from which they arose [The 'Made in Germany' Champion Brands](#) Ugesh A.

Joseph, 2016-03-09 Germany's economic miracle is a widely known phenomenon and the world leading innovative products and services associated with German companies are something that others seek to imitate. In *The Made in Germany Champion Brands* Ugesh A. Joseph provides an extensively researched insightful look at over 200 of Germany's best brands to see what they stand for, what has made them what they are today, and what might be transferable. The way Germany is branded as a nation carries across into the branding of its companies and services, particularly the global superstar brands truly world class in size, performance, and reputation. Just as important are the medium sized and small enterprises known as the *Mittelstand*. These innovative and successful enterprises from a wide range of industries and product/service categories are amongst the World market leaders in their own niche and play a huge part in making Germany what it is today. The book also focuses on German industrial entrepreneurship and a selection of innovative and emergent stars. All these companies are supported and encouraged by a sophisticated infrastructure of facilitators, influencers, and enhancers, the research industry, trade and standards organizations, the fairs and exhibitions, and all the social and cultural factors that influence, enhance, and add positive value to the country's image. Professionals or academics interested in business, entrepreneurship, branding, and marketing, product or service development, international trade, and business development policy will find fascinating insights in this book, while those with an interest in Germany from emerging industrial economies will learn something of the secrets of German success.

Benedikte Naubert (1756-1819) and Her Relations to English Culture Hilary Brown, 2005 The 18th century saw the first significant phase of cultural interchange between Britain and Germany. This study examines the part played in this process by women writers who were entering the literary world in large numbers for the first time. It asks whether a cross-cultural female literary tradition emerged during the period.

A User's Guide to German Cultural Studies Scott D. Denham, Irene Kacandes, Jonathan Petropoulos, 1997 Capitalizes on the ripeness of the German case for interdisciplinary investigation.

Music Into Fiction Theodore Ziolkowski, 2017 Illuminates unexplored dimensions of the music-literature relationship and the sometimes unrecognized talents of certain famous writers and composers. This book deals with three aspects that have been neglected in the burgeoning field of music and literature. The First Movement of the book considers writers from German Romanticism to the present who like Robert Schumann first saw themselves as writers before they turned to composition, or like E. T. A. Hoffmann and Anthony Burgess sought careers in music before becoming writers. It also considers the few operatic composers such as Richard Wagner and Arnold Schoenberg who wrote their own libretti. The Second Movement turns to literary works based specifically on musical compositions. This group includes first and more generally prose works whose author chose a specific musical form such as sonata or fugue as an organizational model. And second, it includes novels based

structurally or thematically on specific compositions such as Bach's Goldberg Variations. The Finale concludes with a unique case study of efforts by modern composers to render musically the compositions described in detail by Thomas Mann in his novel *Doktor Faustus*. This book, which addresses itself to readers interested generally in music and literature and is written in a reader-friendly style, draws attention to unexplored dimensions of the music-literature relationship and to the sometimes unrecognized talents of certain writers and composers. Theodore Ziolkowski is Professor Emeritus of German and Comparative Literature, Princeton University.
