*The Israeli-Palestinian Conflict* Alisa Douer, 2015 We should not argue about who is to blame for the Israeli Palestinian conflict There is enough guilt on both sides Uri Avneri Smoldering since the late 1920s the Israeli Palestinian conflict reached its first climax immediately after the State of Israel was founded on May 15 1948 Devised by European nations as the perfect solution the new state received a large number of displaced Jews who were unwelcome in their countries of origin We can only answer a few of the myriad yet unasked questions What we know for sure is that more than 750 000 Palestinians were expelled or escaped from Israel Palestine after 1948 About 470 000 of them fled to refugee camps in Jordan Syria Lebanon and Egypt The rest scattered all over the world Deprived of citizenship and human rights Palestinians have remained refugees in most of the Arab world until this day Why By 2013 more than 150 settlements and towns populated by more than half a million Jews had been built on confiscated land on the West Bank Even moderate Palestinian leaders consider these confiscations a provocation Israel is increasingly turning into an apartheid state and its political standing is constantly deteriorating The Israeli intellectual elite has always raised its voice against the occupation and the settlements arguing that human rights and equality two pillars of Zionism are being violated Time has come for the voice of reason which calls for a two state solution to be heard

**Christianity** Philip Kennedy, 2011-02-22 The Christian faith has the allegiance of one third of the human race It has succeeded in influencing civilization to such a degree that we now take its existence almost for granted Yet it might all have been so different Christianity began with the words and deeds of an obscure village carpenter's son who died a shameful criminal's death at the hands of the Roman occupiers of his country itself an insignificant outpost of the powerful ruling Empire The feverish land of biblical Palestine awash with apocalyptic expectations of deliverance from its foreign overlords was hardly short of seers and prophets who claimed to be sent visions from God Yet the followers of this man thought he was different so different in fact that some years after his death and asserted resurrection they scandalously insisted not only that he was sent by God but that he was God How a provincial sect with its seemingly outrageous ideas became first the sanctioned religion of the Roman Empire and then over the course of 2000 years the creed of billions of people is the improbable story that this book tells It is a story of freethinkers friars fanatics and firebrands and of the lay people not just the clerical or the powerful who have made up the great mass of Christians over the centuries Many introductions to Christianity are written by Christians for Christians This elegant textbook by contrast shows that the history of the religion while often glorious is not one of unimpeded progress but something still more remarkable flawed and human
