Horror in Space Michele Brittany, 2017-11-21 In sharp contrast to many 1960s science fiction films with idealized views of space exploration Ridley Scott's Alien 1979 terrified audiences depicting a harrowing and doomed deep space mission The

Alien films launched a new generation of horror set in the great unknown inspiring filmmakers to take Earth bound franchises like Leprechaun and Friday the 13th into space This collection of new essays examines the space horror subgenre with a focus on such films as Paul W S Anderson's Event Horizon Duncan Jones' Moon Mario Bava's Planet of the Vampires and John Carpenter's Ghosts of Mars Contributors discuss how filmmakers explored the concepts of the final girl survivor the uncanny valley the isolationism of space travel religion and supernatural phenomena *Roy Ward Baker* Geoff Mayer, 2004 This book traces the career of Roy Ward Baker one of the great survivors of the British film and television industry He directed the landmark British film Morning Departure 1949 worked at Twentieth Century Fox in Hollywood in the early 1950s where he directed Marilyn Monroe and the best version of the Titanic disaster A Night to Remember in 1958 He then moved to television series such as The Avengers The Saint and Minder Later Baker re-emerged as a major director of science fiction Quatermass and The Pit and horror films Asylum Geoff Mayer provides an industrial and aesthetic context in which to understand the interrelationship between a skilled classical director and the transformation of the British film industry in the 1950s Cryptomimesis Jodey Castricano, 2001-11-07 She develops the theory of cryptomimesis a term devised to accommodate the convergence of philosophy psychoanalysis and certain Gothic stylistic formal and thematic patterns and motifs in Derrida's work that give rise to questions regarding writing reading and interpretation Using Edgar Allan Poe's Madeline and Roderick Usher Bram Stoker's Dracula and Stephen King's Louis Creed she illuminates Derrida's concerns with inheritance revenance and haunting and reflects on deconstruction as ghost writing Castricano demonstrates that Derrida's Specters of Marx owes much to the Gothic insistence on the power of haunting and explores how deconstruction can be thought of as the ghost or deferred promise of Marxism She traces the movement of the phantom throughout Derrida's other texts arguing that such writing provides us with an uneasy model of subjectivity because it suggests that to be is to be haunted Castricano claims that cryptomimesis is the model method and theory behind Derrida's insistence that to learn to live we must learn how to talk with ghosts **Balancing the Scales** Marie A. Conn, Therese Benedict McGuire, 2003 Balancing the Scales a book of essays by faculty members of Chestnut Hill College in Philadelphia is an exploration of the manipulation and transformation of symbolic concepts of women A multidisciplinary collection representing Art History English Spanish Language and Literature Psychology and Theology this book hopes to raise awareness of the historical perception of women before and after the so-called patriarchal revolution In the eighth century BCE the Greek poet Hesiod changed the character of Pandora a manifestation of the Great Earth Mother into Pandora the bringer of evil This fundamental change in the nature of the female archetype influenced the biblical writers and their depiction of Eve In the medieval period artistic renderings of the Whore of Babylon and the Woman Clothed with the Sun resulted in cultic images of women as either whore Eve or pure virgin Mary The apparitions and miraculous images of the Black Madonna at Montserrat and Guadalupe show the persistence of the divine feminine in popular culture even as institutional religion denies her

existence The story of Cleopatra breaks open the question of why strong women are seen as frightening The essays conclude with psychological study of the imbalance induced by millennia of patriarchal domination resulting in the loss of the sacred feminine

How to Kill a Vampire Liisa Ladouceur,2013-09-01 A fascinating investigation of what strikes fear in an immortal s heart Vampires exist And in every culture with a legend about bloodsuckers that rise from the grave to prey upon the living there are rules and rituals for how to destroy them How to Kill a Vampire is the first book to focus specifically on all known ways to prevent vampirism protect oneself against attacks and ultimately how to destroy the undead as documented in folklore as well as horror film TV and books Covering everything from obscure legends to contemporary blockbusters Ladouceur s unique approach to vampires traces the evolution of how to kill the fictional creatures and celebrates the most important slayers In exploring how and why we create these monsters and the increasingly complex ways in which we destroy them the book not only serves as a handy guide to the history and modern role of the vampire it reveals much about the changing nature of human fears *Post/modern Dracula* John S. Bak,2009-03-26 Post modern Dracula explores the postmodern in Bram Stoker s Victorian novel and the Victorian in Francis Ford Coppola s postmodern film to demonstrate how the century that separates the two artists binds them more than it divides them What are the postmodern elements of Stoker s novel Where are the Victorian traits in Coppola s film Is there a postmodern gloss on those Victorian traits And can there be a Victorian directive behind postmodernism in general The nine essays compiled in this collection address these and other relevant questions per the novel and the film at three distinct periods post modern Victorianism post modernism and finally postmodernism Part I on post modernist issues in Stoker s novel establishes the link between Victorian themes and postmodern praxes that begins with colonialist concerns and ends with poststructuralist signification Part II looks at the post modernist traits in Stoker s Dracula those obviously influenced by modernism but also with the help of the novel s plasticity vis vis the media over the last century by postmodernism Part III examines more closely the novel s postmodern characteristics particularly with respect to Coppola s 1992 film Bram Stoker s Dracula Dracula defies time and promises to undermine any critical study of it that precisely tries to situate it within a given epoch including a postmodernist one Given its relationship to late capitalist economy to post Marxist politics and to commodity culture and given its universal appeal to human fears and anxieties fetishes and fantasies lusts and desires Stoker s novel will forever remain post modern always

haunting our future as it has repeatedly done so our past Though scholars of Dracula and Gothic literature in general will find some of the essays innovative and engaging per today s literary criticism the book is also intended for both an informed general reader and a novice student of the novel and of the film As such a few essays are highly specialized in postmodern theory whereas others are more centered around the sociohistorical context of the novel and film and use various postmodern theories as inroads into the novel s or the film s study
