Moral Philosophy for Education (RLE Edu K) Robin Barrow,2012-05-04 Teachers and students are frequently confused as to the relevance of abstract philosophical theorising to the reality of the classroom and this book is distinctive for the attention it devotes to philosophy and its potential contribution to practical matters and education in particular The author is critical of many current views of the philosophy of education and argues the validity of philosophy as an integral part of education in its own right against the creation of a new branch of philosophy the philosophy of education The book stresses that relativist ethical theories are no more known to be valid than the absolutist theories they have replaced and in the second section the author argues for a modified utilitarian position The final section enables the reader to relate the general argument of the second part to several specific issues

The Logic of Education (RLE Edu K) Paul Hirst,R S Peters,2012-05-16 This book explores the implications for the curriculum for teaching and for the authority structure of schools and colleges of an analysis of education in which the development of knowledge and understanding is accorded a central position The book explains what philosophy of education is and by concentrating on its central concepts

initiates readers into exploring it for themselves It also serves as a succinct introduction to the growing literature on philosophy of education in the UK

An Essay Towards A Philosophy of Education (RLE Edu K) Charlotte Mason, 2012-05-16 This was the last and most important and comprehensive work of Charlotte Mason founder of the Parents National Educational Union For more than half a century the practical results of her original thought on education could be seen in all parts of the world in the Charlotte Mason Method and the Parents Union Schools

Education, Society and Human Nature Anthony O'Hear, 2011 Intended primarily for education students this book provides an introduction to the philosophy of education that tackles educational problems and at the same time relates them to the mainstream of philosophical analysis Among the educational topics the book discusses are the aims of education the two cultures debate moral education equality as an ideal and academic elitism It examines the limitations of a purely technological education and suggests the shape of a balanced curriculum It critically analyses important educational theses in the work of Rousseau Dewey R S Peters P H Hirst F R Leavis Ronald Dworkin and G H Bantock among many others and considers the philosophical topics of relativism the nature of knowledge the basis of moral choice the value of democracy and the status of religious claims

The Philosophy of Education Harry Schofield, 2011-12-08 There are many students who find philosophy of education difficult because they have never received teaching in the basic essentials of general philosophy This book begins by asking the basic question what is philosophy and examines a number of possible answers Step by step the reader is introduced to the modern techniques of linguistic and concept analysis Whenever a technical term is used it is explained and illustrated by reference to familiar situations in everyday life

Educational Theory (RLE Edu K) Terence Moore, 2012-05-04 This book comes strongly to the defence of educational theory and shows that it has a structure and integrity of its own The author argues that the validity of educational theory may best be judged in terms of the various assumptions made in it His argument is illustrated by a review and critique of some particularly influential theories of education those of Plato Rousseau James Mill and John Dewey He stresses the need for an on going contemporary general theory of education and examines the ways in which the disciplines of psychology sociology and philosophy can contribute to a general theory of this kind

Plato and Education (RLE Edu K) Robin Barrow, 2012-05-16 This introduction to Plato's philosophical and educational thought examines Plato's views and relates them to issues and questions that occupy philosophers of education Robin Barrow stresses the relevance of Plato today while introducing the student both to Plato's philosophy and to contemporary educational debate In the first part of the book the author examines Plato's historical background and summarizes the Republic Successive chapters are concerned with the critical discussion of specific educational issues He deals with questions relating to the impartial distribution of education taking as a starting point Plato's celebrated dictum that unequals should be treated unequally He examines certain methodological concepts such as discovery learning and play and also raises the wider question of children's freedom He looks critically at the content of the curriculum

and discusses Plato's theory of knowledge and attitude to art. Finally Robin Barrow discusses Plato's view of moral education and the related problem of what constitutes moral indoctrination. *Questions in Aesthetic Education (RLE Edu K)* H Redfern, 2012-05-16 The Question of what aesthetic education is or might be is often a source of incomprehension. This book opens up discussion of a complex difficult but highly important topic and offers an introductory survey of the whole area. In examining the relationship of the concept of the aesthetic to that of art it challenges the persistent linking by many educationists of aesthetic with creative and the consequent neglect of critical reflection and appreciation.

Theory & Practice in Education (RLE Edu K) R F Dearden, 2012-05-16 The main concern of the volume is the relation of theory to practice in education but the book also reviews the state of educational theory and its relation to politics. Beginning with a group of papers on specific areas of the relation between theory and practice the book goes on to discuss aspects of the curriculum such as curricular principles in recent official reports the newly emerging theme of general abilities and controversial material in the curriculum. The theme of the third group of articles is personal autonomy one of the very few generally supported educational aims of recent years and a final group presents a retrospective view of the Plowden Report.

Education (RLE Edu K) M Jeffreys, 2012-05-16 This book discusses the very nature and purpose of education and provides a foundation upon which more specialized studies in the psychology history and sociology of education can be based. The book therefore surveys the main problems of human life the relation of the individual and society freedom and authority continuity and change i.e. growth and underlying them all the paradox that aspiration and frustration are continually linked in human experience. The educational implications of these various problems are considered in such a way that the methods as well as the aims of education are discussed. *Educational Theory and Its Foundation Disciplines (RLE Edu K)* Paul

Hirst, 2012-05-04 At the time this book was first published the disciplines of philosophy of education educational psychology sociology of education and the history of education had developed rapidly. The papers in this volume outline the developments that took place. The first paper analyses the nature of a theory concerned with determining practice and the place of academic disciplines within that. What emerges is the crucial role of these disciplines but also the need to develop much more adequately a domain of practical principles assessed and critically reformulated in the light of those disciplines. The following papers are concerned with the contributions four of those disciplines are now making. **Routledge Handbook of Primary**

Physical Education Gerald Griggs, Kirsten Petrie, 2017-11-27 The Routledge Handbook of Primary Physical Education goes further than any other book in exploring the specific theoretical and practical components of teaching PE at the primary or elementary school level. As the most comprehensive review of theory research and practice in primary PE yet published it represents an essential evidence based guide for all students researchers and practitioners working in this area. Written by a team of leading international primary PE specialists from academic and practitioner backgrounds this handbook examines the three discourses that dominate contemporary PE health education and sport. With case studies from twelve countries

including the UK USA Canada Australia New Zealand Norway Spain and South Korea it provides a truly international perspective on key themes and issues such as primary PE pedagogy policy and curriculum development assessment and standards child development diversity and inclusion teacher training and professional development Offering an unprecedented wealth of material this handbook is an invaluable reference for any undergraduate or postgraduate degree programme in primary physical education or any primary teacher training course with a physical education element

Friedrich Froebel and English Education (RLE Edu K) Evelyn Lawrence, 2012-05-16 This collection of essays describes Froebel's life and the history of his influence on the education of young children in Britain It also traces the religious roots of his philosophy and discusses his psychological and educational principles in the light of developments in these fields since his day

Living Powers (RLE Edu K) Peter Abbs, 2013-09-05 When originally published this was the first book to offer a collective history of all the arts Art Drama Dance Music Literature and Film in the curriculum It also offers a coherent framework for the teaching of arts which is in line with the best current trends since the Gulbenkian Report of 1982 It insists that the arts seen together should be an essential part of the national curriculum

The Rationality of Feeling (RLE Edu K) David Best, 2012-05-04 This volume emphasizes the necessity for arts teachers to nurture the personal development of their students by expanding their artistic understanding and creativity In aiming to provide a broader understanding for the effective teaching of the arts the author provides powerful reasons for seeing the arts as agents of learning understanding and development The volume also demonstrates that whilst the arts are centrally concerned with feeling they are as fully open to objective reasoning as any other subject discipline such as science but the dichotomy between scientism and subjectivism is all pervading in a curriculum which marginalises the teaching of the arts

Perspectives on Plowden (RLE Edu K) R Peters, 2012-05-04 The Plowden Report *Children and their Primary Schools* 1967 had a huge impact on education in the latter 20th century but at the time was labelled as left wing and of no practical use to the problems of education in the 1960s The contributors to this volume were all concerned with the educational thinking of the Plowden Report and its appropriateness or otherwise to the educational needs of the day In quarters where the Plowden Report was treated as an authoritative textbook the views in this volume provide a valuable critique
