### **Performing Character in Modern Irish Drama** Michael

Lachman, 2018-05-23 This book is about the history of character in modern Irish drama. It traces the changing fortunes of the human self in a variety of major Irish plays across the twentieth century and the beginning of the new millennium. Through the analysis of dramatic protagonists created by such authors as Yeats, Synge, O'Casey, Friel, and Murphy, and McGuinness and Walsh, it tracks the development of aesthetic and literary styles from modernism to more recent phenomena from Celtic Revival to Celtic Tiger and after. The human character is seen as a testing ground and battlefield for new ideas for social philosophies and for literary conventions through which each historical epoch has attempted to express its specific cultural and literary identity. In this context, Irish drama appears to be both part of the European literary tradition, engaging with its most contentious issues, and a field of resistance to some conventions from continental centres of avant-garde

experimentation. Simultaneously, it follows artistic fashions and redefines them in its critical contribution to European artistic and theatrical diversity.

*A History of Irish Working-Class Writing* Michael Pierse, 2018 Michael Pierse is Lecturer in Irish literature at Queen's University Belfast. His research mainly explores the writing and cultural production of Irish working-class life. Over recent years, this work has expanded into new multidisciplinary themes and international contexts, including the study of festivals, digital methodologies in public humanities, and theatre as research practices. Michael has contributed to a range of national and international publications, is the author of *Writing Ireland's Working Class* (Dublin, after O'Casey, 2011) and has been awarded several Arts and Humanities Research Council awards and the Vice-Chancellor's Award at Queen's.

**The Oxford Handbook of Modern Irish Theatre** Nicholas Grene, Chris Morash, 2016-07-28 The Oxford Handbook of Modern Irish Theatre provides the single most comprehensive survey of the field to be found in a single volume. Drawing on more than forty contributors from around the world, the book addresses a full range of topics relating to modern Irish theatre from the late nineteenth century to the most recent works of postdramatic devised theatre. Ireland has long had an importance in the world of theatre out of all proportion to the size of the country and has been home to four Nobel Laureates: Yeats, Shaw, and Beckett. Seamus Heaney, while primarily a poet, also wrote for the stage. This collection begins with the influence of melodrama and looks at arguably the first modern Irish playwright, Oscar Wilde, before moving into a series of considerations of the Abbey Theatre and Irish modernism. Arranged chronologically, it explores areas such as women in theatre, Irish language theatre, and alternative theatres before reaching the major writers of more recent Irish theatre, including Brian Friel and Tom Murphy, and their successors. There are also individual chapters focusing on Beckett and Shaw, as well as a series of chapters looking at design, acting, and theatre architecture. The book concludes with an extended survey of the critical literature on the field. In each chapter, the author does not simply rehearse accepted wisdom; all of the contributors push the boundaries of their respective fields so that each chapter is a significant contribution to scholarship in its own right.
