

The Origins of Responsibility

François Raffoul

The Origins Of Responsibility Studies In Continental Thought

Simona Chiodo, Viola Schiaffonati

The Origins Of Responsibility Studies In Continental Thought:

The Origins of Responsibility François Raffoul, 2010-04-13 François Raffoul approaches the concept of responsibility in a manner that is distinct from its traditional interpretation as accountability of the willful subject Exploring responsibility in the works of Nietzsche Sartre Levinas Heidegger and Derrida Raffoul identifies decisive moments in the development of the concept retrieves its origins and explores new reflections on it For Raffoul responsibility is less about a sovereign subject establishing a sphere of power and control than about exposure to an event that does not come from us and yet calls to us These original and thoughtful investigations of the post metaphysical senses of responsibility chart new directions for ethics in the continental tradition

Responsibility in Environmental Governance Tobias Gumbert, 2022-10-02 This book provides a comprehensive study of the notion of responsibility in environmental governance It starts with the observation that although the rhetoric of responsibility is indeed all pervasive in environmental and sustainability related fields decisive political action is still lacking Governance architectures increasingly strive to hold different stakeholders responsible by installing accountability and transparency mechanisms to manage environmental problems yet the structural background conditions affecting these issues continue to generate unevenly distributed socially unjust and ecologically devastating consequences Responsibility in Environmental Governance develops the concept of responsibility as an analytical approach to map and understand these dynamics and to situate diverse meanings of responsibility within larger socio political contexts It applies this approach to the study of food waste governance uncovering a narrow governance focus on accountability optimization and consumer behavior change strategies opening up spaces for organizing more democratic solutions to a truly global problem

Cambridge Handbook of Research Approaches to Business Ethics and Corporate Responsibility Patricia H. Werhane, R. Edward Freeman, Sergiy Dmytriiev, 2017-11-16 While there is a large and ever expanding body of work on the fields of business ethics and corporate social responsibility CSR there is a noted absence of a single source on the methodology and research approaches to these fields In this book the first of its kind leading scholars in the fields gather to analyse a range of philosophical and empirical approaches to research in business ethics and CSR It covers such sections as historical approaches normative and behavioural methodologies quantitative qualitative and experimental perspectives grounded theory and case methodologies and finally a section on the role of the researcher in research projects This book is a valuable and essential read for all researchers in business ethics and CSR not only for those starting out in the fields but also for seasoned scholars and academics

Heidegger and Practical Philosophy François Raffoul, David Pettigrew, 2012-02-01 Heidegger has often been reproached for his alleged neglect of practical issues specifically his inability to propose or articulate an ethics or politics This book investigates the extent to which Heidegger's thought can be read as a crucial resource for practical philosophy and the articulation of an ethos for our time Leading scholars from around the world offer a sustained and intensive focus on Heidegger's thought of praxis working through such motifs as freedom the possibility

of ethics the political responsibility community nihilism technology and the contemporary ethos among others Ultimately this volume reveals the practical senses of ontology and the ontological senses of praxis by exhibiting the practicality of Being itself *Husserl, Heidegger and the Crisis of Philosophical Responsibility* R.P. Buckley, 2012-12-06 The guiding dictum of phenomenology is to the things themselves This saying conveys a sense that the things the phenomena with which we are confronted and into which we seek some insight are not as immediately accessible as may be imagined Phenomena however are often hidden not by their distance from us but by their very proximity by the fact that they are taken for granted as being self evident and understood by all Even the most common everyday phenomena and the words used to describe them often reveal upon closer inspection a degree of complexity which had previously been unsuspected Upon interrogation that which had been taken to be self evident and widely understood shows itself otherwise assumed self evidence frequently masks unintelligibility and common understanding can be a sign of a lack of understanding One phenomenon which is extremely proximate in our times is the phenomenon of crisis To be sure one can hardly avoid the word these it abound in periodicals and newspapers but also in days Not only does the learned journals of medicine political science economics art and law barely does an edition appear without the discussion of a crisis of one sort or another within these respective fields One is tempted to remark along with Umberto Eco that crisis sells well One is also inclined to be suspicious of the collective malaise of academics *Freedom and Criminal Responsibility in American Legal Thought* Thomas Andrew Green, 2014-10-27 As the first full length study of twentieth century American legal academics wrestling with the problem of free will versus determinism in the context of criminal responsibility this book deals with one of the most fundamental problems in criminal law Thomas Andrew Green chronicles legal academic ideas from the Progressive Era critiques of free will based and generally retributive theories of criminal responsibility to the midcentury acceptance of the idea of free will as necessary to a criminal law conceived of in practical moral legal terms that need not accord with scientific fact to the late in century insistence on the compatibility of scientific determinism with moral and legal responsibility and with a modern version of the retributivism that the Progressives had attacked Foregrounding scholars language and ideas Green invites readers to participate in reconstructing an aspect of the past that is central to attempts to work out bases for moral judgment legal blame and criminal punishment **The Philosophical Review** Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 2011 An international journal of general philosophy **A Responsibility to the World: Saramago, Politics, Philosophy** Burghard Baltrusch, Carlo Salzani, Kristof K. P. Vanhoutte, 2023-11-22 In a 1987 interview Jos Saramago eloquently expressed what could be considered his political philosophical manifesto Human beings should not content themselves with the role of mere observers They bear a responsibility to the world they must actively engage and intervene In 1998 the celebrated writer was honoured with the Nobel Prize for Literature So Saramago did not only as a human being and a citizen but also as an artist refuse to be a passive observer Despite his profound and always critical

pessimism he tirelessly propelled both his public and artistic persona toward impactful actions and interventions showcasing an unwavering dedication to reshaping the world This volume seeks to delve into this facet of his legacy exploring it from diverse political and philosophical perspectives *The Non-Sovereign Self, Responsibility, and Otherness* Rosine Kelz,2016-02-09 Drawing on Hannah Arendt Judith Butler and Stanley Cavell this book addresses contemporary theoretical and political debates in a broader comparative perspective and rearticulates the relationship between ethics and politics by highlighting those who are currently excluded from our notions of political community *Italian Philosophy of Technology* Simona Chiodo,Viola Schiaffonati,2020-12-20 This is the first volume about the Italian philosophy of technology written in English and including novel and translated contributions The volume presents original research on emerging topics in the field as well as an overview of the most distinguished Italian approaches to the philosophy of technology While offering both historical and political perspectives and the contributions of the philosophy of law philosophy of science and aesthetics Italian Philosophy of Technology promotes a novel view on the intersection between continental and analytic traditions in the philosophy of technology **Ethics and Metaphysics in the Philosophy of Edith Stein** Michael F. Andrews,Antonio Calcagno,2022-02-28 This book is dedicated to Edith Stein 1891 1942 who is known widely for her contributions to metaphysics Though she never produced a dedicated work on questions of ethics her corpus is replete with pertinent reflections This book is the first major scholarly volume dedicated to exploring Stein s ethical thought not only for its wide ranging content from her earlier to later works but also for its applications to such fields as psychology theology education politics law and culture Leading international scholars come together to provide a systematic account of Stein s ethics highlighting its relation to Stein s highly developed and complex metaphysics Questions about the good evil the rights and ethical comportment of the person the state and feminism are addressed The book appeals to scholars interested in the history of philosophical and ethical thought **Columbia Companion to Twentieth-century Philosophies** Constantin V. Boundas,2007 Columbia Companion to Twentieth Century Philosophies is the first guide to cover both the Anglo American analytic and European Continental traditions The first section features Nicholas Rescher writing on neoidealism Josephine Donovan commenting on feminist philosophy Tyler Burge discussing the philosophy of language and mind and Robert Hanna reflecting on Kant s legacy The second section presents Jean Grondin on hermeneutics Leonard Lawlor on phenomenology Charles Scott on postmodernism and Babette Babich on the philosophy of science The volume also covers logical positivism naturalism pragmatism aesthetics existentialism Marxism the Frankfurt School structuralism psychoanalysis political philosophy ethics and the philosophy of religion The final section addresses concurrent trends in Indian Chinese Japanese and African philosophy and a comprehensive introduction by Constantin V Boundas not only provides a thorough outline of the problems and issues of the analytic and Continental traditions but also boldly challenges the conviction that the two approaches must be rivals Offering an unusually panoramic perspective the Columbia Companion to Twentieth Century

Philosophies enables readers to encounter foundational materials on their own terms

The Bloomsbury Research Handbook of Contemporary Japanese Philosophy Michiko Yusa, 2017-09-21 The Bloomsbury Research Handbook of Contemporary Japanese Philosophy examines the current vibrant trends in Japanese philosophical thinking Situating Japanese philosophy within the larger context of global intercultural philosophical discourse and pointing to new topics of research this Handbook covers philosophy of science philosophy of peace philosophy of social justice and healing Introducing not only new readings of well known Japanese philosophers but also work by contemporary Japanese philosophers who are relatively unknown outside Japan it makes a unique contribution by offering an account of Japanese philosophy from within and going beyond an objective description of it in its various facets Also featured is the work of a younger generation of scholars and thinkers who bring in fresh perspectives that will push the field into the future These critical essays by leading philosophers and rising scholars to the past and the present of Japanese philosophy demonstrate ways of doing engaged philosophy in the present globalized age With suggestions for further reading a glossary a timeline and annotated bibliography The Bloomsbury Research Handbook of Contemporary Japanese Philosophy is an ideal research guide to understanding the origin transformation and reception of Japanese philosophy in the 21st century

Studies in the History of Political Philosophy Before and After Rousseau Charles Edwyn Vaughan, 1925

History and Morality Donald Bloxham, 2020-07-02 Against majority opinion within his profession Donald Bloxham argues that it is legitimate often unavoidable and frequently important for historians to make value judgements about the past History and Morality draws on a wide range of historical examples and its author s insights as a practicing historian Examining concepts like impartiality neutrality contextualisation and the use and abuse of the idea of the past as a foreign country Bloxham s book investigates how far tacit moral judgements infuse works of history and how strange those histories would look if the judgements were removed The author argues that rather than trying to eradicate all judgemental elements from their work historians need to think more consistently about how and with what justification they make the judgements that they do The importance of all this lies not just in the responsibilities that historians bear towards the past responsibilities to take historical actors on those actors own terms and to portray the impact of those actors deeds but also in the role of history as a source of identity pride and shame in the present The account of moral thought in History and Morality has ramifications far beyond the activities of vocational historians

The Bloomsbury Companion to Arendt Peter Gratton, Yasemin Sari, 2020-10-01 Hannah Arendt s 1906 1975 writings both in public magazines and in her important books are still widely studied today She made original contributions in political thinking that still astound readers and critics alike The subject of several films and numerous books colloquia and newspaper articles Arendt remains a touchstone in innumerable debates about the use of violence in politics the responsibility one has under dictatorships and totalitarianism and how to combat the repetition of the horrors of the past The Bloomsbury Companion to Arendt offers the definitive guide to her writings and ideas her influences and commentators

as well as the reasons for her lasting significance with 66 original essays taking up in accessible terms the myriad ways in which one can take up her work and her continuing importance These essays written by an international set of her best readers and commentators provides a comprehensive coverage of her life and the contexts in which her works were written Special sections take up chapters on each of her key writings the reception of her work and key ways she interpreted those who influenced her If one has come to Arendt from one of her essays on freedom or from yet another bombastic account of her writings on Adolph Eichmann or as a student or professor working in the field of Arendt studies this book provides the ideal tool for thinking with and rediscovering one of the most important intellectuals of the past century But just as importantly contributors advance the study of Arendt into neglected areas such as on science and ecology to demonstrate her importance not just to debates in which she was well known but those touched off only after her death Arendt's approaches as well as her concrete claims about the political have much to offer given the current ecological and refugee crises among others In sum then the Companion provides a tool for thinking with Arendt but also for showing just where those thinking with her can take her work today Jean-Luc Nancy Benjamin Hutchens,2011-12-15 Before now Jean Luc Nancy's contributions to legal and political theory have been largely overlooked and lacking the in depth appraisal they deserve In this unique collection eighteen notable Nancy scholars contextualize Nancy's work in these areas within the broad corpus of his other concerns By emphasizing the originality of his theories in a globalizing age each distinctive chapter provides a new and valuable insight into Nancy's legal and political philosophy Together with his work on sense community and art these cutting edge contributions examine Nancy's conceptions of justice legality and world in conjunction with the interpretation and rationality of The ontology of the event The form of relationality The effects of globalization The importance of Christianity in contemporary legal and political theory Including a brand new essay by Nancy himself this collection marks an important and timely step in a rich area of study *The Origins of Free Peoples* Jason Caro,2011-05-12 **The Bloomsbury Research Handbook of Chinese Philosophy Methodologies** Sor-hoon Tan,2016-08-25 The Bloomsbury Research Handbook of Chinese Philosophy Methodologies presents a new understanding of the changing methods used to study Chinese philosophy By identifying the various different approaches and discussing the role and significance of philosophical methods in the Chinese tradition this collection identifies difficulties and exciting developments for scholars of Asian philosophy Divided into four parts the nature of Chinese philosophical thought is illuminated by discussing historical developments current concerns and methodological challenges Surveying recent methodological trends this research companion explores and evaluates the methodologies that have been applied to Chinese philosophy From these diverse angles an international team of experts reflect on the considerations that enter their methodological choices and indicate new research directions The Bloomsbury Research Handbook of Chinese Philosophy Methodologies is an important contribution to the education of the next generation of Chinese philosophers **Hans Blumenberg's History and**

Philosophy of Science Alberto Fragio, Josefa Ros Velasco, Martina Philippi, Cornelius Borck, 2025-01-31 This book highlights and develops a hitherto neglected area of Hans Blumenberg's contributions i.e. history and philosophy of science. It covers both Blumenberg's works on the history of ideas and conceptual change as well as his studies on transformative periods and his intellectual history of technology. Hans Blumenberg 1920-1996 was one of the leading German philosophers after the Second World War bridging from the continental tradition of philosophy, conceptual history and metaphorology. This volume though explores the methodological instruments that he developed and how we may use them to do history and philosophy of science. In doing so it opens up a new field of research and provides insight into further developing a continental history and philosophy of science making this book of great interest to both historians and philosophers alike.

Getting the books **The Origins Of Responsibility Studies In Continental Thought** now is not type of inspiring means. You could not by yourself going behind books growth or library or borrowing from your connections to entrance them. This is an certainly easy means to specifically acquire guide by on-line. The Origins Of Responsibility Studies In Continental Thought Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free The Origins Of Responsibility Studies In Continental Thought PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational

resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free The Origins Of Responsibility Studies In Continental Thought PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of The Origins Of Responsibility Studies In Continental Thought free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.
