F. Kroll, 2014-07-21 The English Novel Volume I 1700 to Fielding collects a series of previously published essays on the early eighteenth century novel in a single volume reflecting the proliferation of theoretical approaches since the 1970s The novel has been the object of some of the most exciting and important critical speculations and the eighteenth century novel has been at the centre of new approaches both to the novel and to the period between 1700 and 1750 Richard Kroll s introduction seeks to frame the contributions by reference to the most significant critical discussions These include the question of whether and how we can talk about the rise of the novel the vexed question of what might constitute a novel the relationship between the novel and possibly competing genres such as history or the romance the relationship between early male writers like Defoe and popular novels by women in the early eighteenth century the general ideological role played by novels relative to eighteenth century culture are they means of ideological conscription or liberation poststructuralist analyses of identity and gender and the emergence of sentimental and domestic codes after Richardson Since the modern European novel is often thought to have been formed in this period these debates have clear implications for students of the novel in general as well as for those interested in the early enlightenment Headnotes place each essay within the map of these wider concerns and the volume offers a useful further reading list Taken as a whole this collection encapsulates the state of criticism at the present moment The ^AOrigins of Sex Faramerz Dabhoiwala, 2012-05-01 A book that reveals how where and when Western attitudes toward sex were revolutionized and how this has shaped the course of modern history *Criminal Law and the Modernist Novel* Rex Ferguson, 2013-07-08 The realist novel and the modern criminal trial both came to fruition in the nineteenth century Each places a premium on the author s or trial lawyer s ability to reconstruct reality reflecting modernity s preoccupation with firsthand experience as the basis of epistemological authority But by the early twentieth century experience had as Walter Benjamin put it fallen in value The modernist novel and the criminal trial of the period began taking cues from a kind of nonexperience one that nullifies identity subverts repetition and supplants presence with absence Rex Ferguson examines how such nonexperience colours the overlapping relationship between law and literary modernism Chapters on E M Forster s A Passage to India Ford Madox Ford s The Good Soldier and Marcel Proust s In Search of Lost Time detail the development of a uniquely modern subjectivity offering new critical insight to scholars and students of twentieth century literature cultural studies and the history of law

and philosophy

**The Oxford Handbook of the Eighteenth-Century Novel** J. A. Downie, 2016-09-01 Although the emergence of the English novel is generally regarded as an eighteenth century phenomenon this is the first book to be published professing to cover the eighteenth century English novel in its entirety This Handbook surveys the development of the English novel during the long eighteenth century in other words from the later seventeenth century right through to the first three decades of the nineteenth century when with the publication of the novels of Jane Austen and Walter Scott the novel finally gained critical acceptance and assumed the position of cultural hegemony it enjoyed for over a century By situating the novels of the period which are still read today against the background of the hundreds published between 1660 and 1830 this Handbook not only covers those masters and mistresses of early prose fiction such as Defoe Richardson Fielding Sterne Burney Scott and Austen who are still acknowledged to be seminal figures in the emergence and development of the English novel but also the significant number of recently rediscovered novelists who were popular in their own day At the same time its comprehensive coverage of cultural contexts not considered by any existing study but which are central to the emergence of the novel such as the book trade and the mechanics of book production copyright and censorship the growth of the reading public the economics of culture both in London and in the provinces and the re printing of popular fiction after 1774 offers unique insight into the making of the English novel

**Novel Relations** Ruth Perry, 2004-08-05 Ruth Perry describes the transformation of the English family as a function of several major social changes taking place in the eighteenth century including the development of a market economy and waged labor enclosure and the redistribution of land urbanization the rise of the middle class and the development of print culture In particular Perry traces the shift from a kinship orientation based on blood relations to a kinship axis constituted by conjugal ties as it is revealed in popular literature of the second half of the eighteenth century Perry focuses particularly on the effect these changes had on women's position in families She uses social history literary analysis and anthropological kinship theory to examine texts by Samuel Richardson Charlotte Lennox Henry MacKenzie Frances Burney Jane Austen and many others This important study by a leading eighteenth century scholar will be of interest to social and literary historians

**British Travel Writers in Europe 1750-1800** Katherine Turner, 2017-11-01 This title was first published in 2001 Hundreds of European travelogues produced by British travellers between 1750 and 1800 remain out of sight in most libraries and have generally been out of print since the 18th century While many people with a working knowledge of the 18th century are familiar with works including Sterne s *A Sentimental Journey* and Smollett s *Travels through France and Italy* those produced by less literary travellers are largely unknown This study aims to recreate the world of 18th century travel writing in order to illuminate its central role in shaping Britain s emerging sense of national identity an identity which proves to be more complex and less homogeneous than some cultural and historical studies would suggest The author finds that the developing discourse of national character is bound up with questions of gender national and authorial virtue are projected in terms of appropriately gendered behaviour for male and female travel writers alike In turn gender intersects with class most obviously in the tendency to denigrate aristocratic travellers as effeminate and celebrate the more manly activities of the middle class traveller These then national identity authorship and gender are the central preoccupations of the study

Romance for Sale in Early Modern England Steve Mentz, 2017-09-29 The major claim made by this study is that early modern English prose fiction self consciously invented a new form of literary culture in which professional writers created books to be printed and sold to anonymous readers It further claims that this period s narrative innovations emerged not solely from changes in early modern culture like print and the book market but also from the rediscovery of a forgotten late classical text from North Africa Heliodorus s *Aethiopian History* In making these claims Steve Mentz provides a comprehensive historicist and formalist account of prose romance the most important genre of Elizabethan fiction He explores how authors and publishers of prose fiction in late sixteenth century England produced books that combined traditional narrative forms with a dynamic new understanding of the relationship between text and audience

Though prose fiction would not dominate English literary culture until the eighteenth century Mentz demonstrates that the form began to invent itself as a distinct literary kind in England nearly two centuries earlier Examining the divergent but interlocking careers of Robert Greene Sir Philip Sidney Thomas Lodge and Thomas Nashe Mentz traces how through differing commitments to print culture and their respective engagements with Heliodoran romance these authors helped make the genre of prose fiction culturally and economically viable in England Mentz explores how the advent of print and the book market changed literary discourse influencing new conceptions of what he calls middlebrow narrative and new habits of reading and writing This study draws together three important strains of current scholarly inquiry the history of the book and print culture the study of popular fiction and the re examination of genre and influence It also connects early modern fiction with longer histories of prose fiction and the rise of the modern novel     The Postsecular Restoration and the Making of Literary Conservatism Corrinne Harol,2022-12-22 Corrinne Harol reveals how secularization catalysed conservative writers to respond and thereby contribute impactfully to literary history     *The Manufacturers of Literature* George Justice,2002-02 The book combines an examination of the network of material conditions of authorship and publishing during the century with literary readings in order to explore the mutually constitutive nature of literature the material forces that influence its production and the social world of readers BOOK JACKET     *A Sentimental Journey* ,     *The Cambridge Companion to the Novel* Eric Bulson,2018-06-28 This Companion focuses on the novel as a global genre and examines its role impact and development
