The Planets A Cosmic Pastoral Poems:

The Planets Diane Ackerman, 1976 **The Planets** Diane Ackerman, 1977 Scientifically accurate poems on the planets moons and asteroids of our solar system and the stars beyond evoke earthbound responses to those bodies discoveries concerning them and journeys to them **The Planets** Diane Ackerman, 2026-02-24 From Marginalian Editions comes a gorgeous reissue of celebrated poet essayist and naturalist Diane Ackerman s debut collection a whimsical and wonderful ode to our solar system planet to planet blending science and imagination astronomy and cosmology as well as fantasy satire myth confession and bawdiness galore First published in 1973 *The Planets A Cosmic Pastoral* introduced not only a splendid new poet but a whole new adventure in poetry With bravura style unbridled imagination and a connoisseur s eye for precise scientific detail Diane Ackerman gives us an unforgettable ode to each of the planets in our solar system as well as for the moon the comet Kohoutek asteroids and strange voyages to the stars the bottom of the sea through the human body and into the mind But *The Planets* is more than a book of poetry It is also a major work on the solar system illustrated with drawings and photographs of the galaxy Diane Ackerman herself says I ve always been baffled by people who write about nature only in terms of say junipers and cornfields eschewing all things so called scientific as if science were per se the spoil sport of feeling So wonderless a view of nature really doesn t appeal to me I don t see the Universe divided up that way into The Junipers on the one hand and The Amino Acids on the other Astronomy fantasy satire myth confession and bawdiness meet imagination and lyrical sweep to create this enticing collection the world of *The Planets* [Lyric Poetry and Space Exploration from Einstein to the Present](#) Margaret Greaves, 2023 Anchored in the postwar period but drawing on a long history of poetry and science *Lyric Poetry and Space Exploration from Einstein to the Present* charts surprising connections between poetry and extraterrestrial space **The Broadview Introduction to Literature: Poetry** Lisa Chalykoff, Neta Gordon, Paul Lumsden, 2013-08-09 Designed for courses taught at the introductory level in Canadian universities and colleges this new anthology provides a rich selection of literary texts In each genre the anthology includes a vibrant mix of classic and contemporary works Each work is accompanied by an author biography and by explanatory notes and each genre is prefaced by a substantial introduction Pedagogically current and uncommon in its breadth of representation *The Broadview Introduction to Literature* invites students into the world of literary study in a truly distinctive way *The Broadview Introduction to Literature Poetry* includes a broad range of both canonical authors and important but less widely known poets and the poems are diverse in form subject matter and geographical and linguistic origin Poems in translation from languages other than English are included with the original language text in facing page format [American Writers](#) Elizabeth H. Oakes, 2004 *American Writers* focuses on the rich diversity of American novelists *Contemporary Poetry and Contemporary Science* Robert Crawford, 2006-09-07 A unique collaboration between leading poets and scientists *Contemporary Poetry and Contemporary Science* demonstrates through its form and through practice as well as reflection

that poetry and science can meet with productive results Crossing between disciplines and between prose and verse the book shows how modes of scientific knowledge and of poetic making continue to be intertwined Often drawing on Scottish intellectual traditions rather than on the notorious two cultures argument Contemporary Poetry and Contemporary Science argues through examples for a more open and mutually sympathetic engagement of poetry and science in contemporary culture Provocative nimble and surprising this book is in several senses a crossover volume In its gathering of essays as well as poems it is the first book of its kind Readers can see how a poet and a solar physicist may share working assumptions how poetic insight may inform psychiatric practice how a poet s encounter with an MRI scanner leads to a fresh neurological experiment As well as new essays by internationally distinguished poets scientists and literary critics including Simon Armitage Gillian Beer Jocelyn Bell Burnell Miroslav Holub Kay Redfield Jamison and Edwin Morgan the book includes a series of specially commissioned poems by John Burnside Michael Donaghy Sarah Maguire Paul Muldoon Don Paterson and others Each poem is introduced by the scientist whose work prompted the poem Though Contemporary Poetry and Contemporary Science exposes and investigates strains between the way poets and scientists see and reinvent the world the book is most arresting and enjoyable when it shows just how often poets and scientists agree **The Zephyrs of Najd** Jaroslav

Stetkevych,1993-12-15 Arabs have traditionally considered classical Arabic poetry together with the Qur an as one of their supreme cultural accomplishments Taking a comparatist approach Jaroslav Stetkevych attempts in this book to integrate the classical Arabic lyric into an enlarged understanding of lyric poetry as a genre Stetkevych concentrates on the places of lost bliss that furnish the dominant motif in the lyric elegiac opening section nasib of the classic Arab code or qusidah In defining the Arabic lyrical genre he shows how pre Islamic lamentations over abandoned campsites evolved in Arabo Islamic mystical poetry into expressions of spiritual nostalgia Stetkevych also draws intriguing parallels between the highlands of Najd in Arabic poetry and Arcadia in the European tradition He concludes by exploring the degree to which the pastoral paradisiacal archetype of the nasib pervades Arabic literary perception from the pre Islamic ode through the Thousand and One Nights and later texts Enhanced by Stetkevych s sensitive translations of all the Arabic texts discussed The Zephyrs of Najd brings the classical Arabic ode fully into the purview of contemporary literary and critical discourse *NASA EP*.
