The Oxford Handbook of Nineteenth-Century Women Philosophers in the German Tradition Kristin Gjesdal, Dalia Nassar, 2024 This Oxford Handbook celebrates the work of trailblazing women in the history of modern philosophy Through thirty one original chapters it engages with the work of women philosophers spanning the long nineteenth century in the German tradition and covers women's contribution to major philosophical movements including romanticism and idealism socialism and Marxism Nietzscheanism feminism phenomenology and neo Kantianism It opens with a section on figures offering essays focused on fifteen thinkers in this tradition before moving on to sections of essays on movement and topics Across the volume's chapters essays examine women's contributions to key philosophical areas such as epistemology and metaphysics aesthetics ethics social and political philosophy ecology education and the philosophy of nature

The Oxford Handbook of British Philosophy in the Nineteenth Century W. J. Mander, 2014-02-06 This volume contains thirty new essays by leading experts on British philosophy in the nineteenth

century and provides a comprehensive and unrivalled resource for advanced students and scholars As well as the most celebrated figures such as Mill Spencer Sidgwick and Bradley the Handbook discusses many other less well known names and debates from the period such as Whewell Shadworth Hodgson and Martineau The Handbook contains six parts Part I examines logic and scientific method from Whately through to the advent of modern formal logic Part II discusses some of the century's most famous metaphysical systems such as those of the Scottish Common Sense school J F Ferrier and F H Bradley Part III covers science and philosophy paying particular attention to positivism and the impact of Darwin's evolutionary theory Part IV explores ethical social and political thought including the lesser known themes of feminism and British Socialism Part V concerns religious philosophy and Part VI examines the changes which took place in the practice of philosophy itself during the nineteenth century Prefaced by an introductory article which contextualises and relates the various themes and controversies of the century each chapter provides an overview of the topic under consideration and surveys of the state of current research while at the same time offering new ideas and suggestions for future interpretation

The Imagination in German Idealism and Romanticism Gerad Gentry, Konstantin Pollok, 2019-06-13 Explores imagination and human rationality in a crucial period of philosophy from hermeneutics and transcendental logic to ethics and aesthetics

The Oxford History of Modern German Theology, Volume 1: 1781-1848 Grant Kaplan, Kevin M. Vander Schel, 2023 Oxford History of Modern German Theology Vol I 1781 1848 offers a multi author overview of the development of modern German theology from 1781 to 1848 Across 36 chapters Kaplan and Vander Schel underline important movements in German theology during this period and highlight unresolved questions which have shaped subsequent discussion **The Oxford**

Handbook of the History of Physics Jed Z. Buchwald, Robert Fox, 2013-10-10 The Oxford Handbook of the History of Physics brings together cutting edge writing by more than twenty leading authorities on the history of physics from the seventeenth century to the present day By presenting a wide diversity of studies in a single volume it provides authoritative introductions to scholarly contributions that have tended to be dispersed in journals and books not easily accessible to the general reader While the core thread remains the theories and experimental practices of physics the Handbook contains chapters on other dimensions that have their place in any rounded history These include the role of lecturing and textbooks in the communication of knowledge the contribution of instrument makers and instrument making companies in providing for the needs of both research and lecture demonstrations and the growing importance of the many interfaces between academic physics industry and the military **The Oxford Handbook of Nineteenth-Century Christian Thought** Joel

Rasmussen, Judith Wolfe, Johannes Zachhuber, 2017-06-22 Through various realignments beginning in the Revolutionary era and continuing across the nineteenth century Christianity not only endured as a vital intellectual tradition contributed importantly to a wide variety of significant conversations movements and social transformations across the diverse spheres of intellectual cultural and social history The Oxford Handbook of Nineteenth Century Christian Thought proposes new readings

of the diverse sites and variegated role of the Christian intellectual tradition across what has come to be called the long nineteenth century. It represents the first comprehensive examination of a picture emerging from the twin recognition of Christianity's abiding intellectual influence and its radical transformation and diversification under the influence of the forces of modernity. Part one investigates changing paradigms that determine the evolving approaches to religious matters during the nineteenth century, providing readers with a sense of the fundamental changes at the time. Section two considers human nature and the nature of religion. It explores a range of categories rising to prominence in the course of the nineteenth century and influencing the way religion in general and Christianity in particular were conceived. Part three focuses on the intellectual, cultural, and social developments of the time, while part four looks at Christianity and the arts, a major area in which Christian ideas, stories, and images were used, adapted, changed, and challenged during the nineteenth century. Christianity was radically pluralized in the nineteenth century, and the fifth section is dedicated to Christianity and Christianities. The chapters sketch the major churches and confessions during the period. The final part considers doctrinal themes, registering the wealth and scope through broad narrative and individual example. This authoritative reference work offers an indispensable overview of a period whose forceful ideas continue to be present in contemporary theology.

Hegel's Political Aesthetics Stefan Bird-Pollan, Vladimir Marchenkov, 2020-05-14. What is the role of art in modern society? To what extent are the beautiful and the morally good intertwined? Hegel's *Political Aesthetics* explores Hegel's take on these ever-relevant philosophical questions and investigates three key themes: art's contribution to modern ethical life, the loss of art's authority in modern ethical life, and ways of thinking beyond Hegel's analysis of art's role in society. The aesthetic is explored through the lens of German Idealism, from Kant to Hegel, ultimately placing ethics and morality at the forefront of this debate. The authors explore Hegel's take on Kant's conception by historicizing what it means to be responsible to others, which for Hegel means being free within the norms of society within what he calls ethical life. As a set of concrete social arrangements designed for finite human beings, however, ethical life falls short of actualizing freedom absolutely. The themes in this volume are motivated by a central ambivalence in Hegel's thinking about modernity. The question of freedom sits at the forefront of this text alongside the relation between art and the spirit. This book will be of particular interest to philosophers of aesthetics, politics, and ethics.

The Oxford Handbook of The History of Analytic Philosophy Michael Beaney, 2013-06-20. The main stream of academic philosophy in Anglophone countries and increasingly worldwide is identified by the name analytic. The study of its history from the 19th century to the late 20th has boomed in recent years. These specially commissioned essays by forty leading scholars constitute the most comprehensive book on the subject.

The Oxford Handbook of Philosophy of Biology Michael Ruse, 2008-07-10. This handbook covers the history of philosophy of biology, then moves on to evolutionary theory. It continues with discussions of molecular biology and ecology and covers biology and ethics as well as biology and religion.

The Oxford Handbook of Philosophy of Perception

Mohan Matthen, 2015-07-02 *The Oxford Handbook of Philosophy of Perception* is a survey by leading philosophical thinkers of contemporary issues and new thinking in philosophy of perception. It includes sections on the history of the subject, introductions to contemporary issues in the epistemology, ontology, and aesthetics of perception, treatments of the individual sense modalities and of the things we perceive by means of them, and a consideration of how perceptual information is integrated and consolidated. New analytic tools and applications to other areas of philosophy are discussed in depth. Each of the forty-five entries is written by a leading expert, some collaborating with younger figures; each seeks to introduce the reader to a broad range of issues. All contain new ideas on the topics covered; together they demonstrate the vigour and innovative zeal of a young field. The book is accessible to anybody who has an intellectual interest in issues concerning perception.

The Oxford Handbook of the History of Quantum Interpretations Guido Bacciagaluppi, Olivier Darrigol, Thiago Hartz, Christian Joas, Alexei Kojevnikov, 2022 This Oxford Handbook provides a rigorous interdisciplinary review of the history of interpretations of quantum physics, presenting the key controversies within the field as well as outlining its successes and its extraordinary potential across various scientific fields.

The Oxford Handbook of the Reception of Aquinas Matthew Levering, Marcus Plested, 2021-01-14 The Oxford Handbook of the Reception of Aquinas provides a comprehensive survey of Catholic, Orthodox, and Protestant philosophical and theological reception of Thomas Aquinas over the past 750 years. This Handbook will serve as a necessary primer for everyone who wishes to study Aquinas's thought and/or the history of theology and philosophy since Aquinas's day. Part I considers the late medieval receptions of Aquinas among Catholics and Orthodox. Part II examines sixteenth-century Western receptions of Aquinas, Protestant and Catholic, followed by a chapter on sixteenth and seventeenth-century Orthodox reception. Part III discusses seventeenth-century Protestant and Catholic receptions, and Part IV surveys eighteenth and nineteenth-century receptions, Protestant, Orthodox, and Catholic. Part V focuses on the twentieth century and takes into account the diversity of theological movements in the past century as well as extensive philosophical treatment. The final section unpicks contemporary systematic approaches to Aquinas, covering the main philosophical and theological themes for which he is best known. With chapters written by a wide range of experts in their respective fields, this volume provides a valuable touchstone regarding the developments that have marked the past seven centuries of Christian theology.

The Oxford Handbook of Catholic Theology Lewis Ayres, Medi Ann Volpe, 2019-03-28 The Oxford Handbook of Catholic Theology provides a one-volume introduction to all the major aspects of Catholic theology. Part One considers the nature of theological thinking and the major topics of Catholic teaching, including the Trinity, God, the Creation, and the mission of the Incarnate Word. It also covers the character of the Christian sacramental life and the major themes of Catholic moral teaching. The treatments in the first part of the Handbook offer personal syntheses of Catholic teaching, but each offers an account in accord with Catholic theology as it is expressed in the Second Vatican Council and authoritative documentation. Part Two focuses on the historical development of Catholic Theology. An initial section offers

essays on some of Catholic theology's most important sources between 200 and 1870 and the final section of the collection considers all the main movements and developments in Catholic theology across the world since 1870. This comprehensive volume features fifty-six original contributions by some of the best-known names in current Catholic theology from the Americas, Europe, Asia, and Africa. The chapters are written in an engaging and easily comprehensible style, functioning both as a scholarly reference and as a survey of the field. There are no comparable studies available in one volume, and the book will be an indispensable reference for students of Catholic theology at all levels and in all contexts. John Venn Lukas M. Verburgt, 2022-04-08. The first comprehensive history of John Venn's life and work. John Venn (1834–1923) is remembered today as the inventor of the famous Venn diagram. The postmortem fame of the diagram has until now eclipsed Venn's own status as one of the most accomplished logicians of his day. Praised by John Stuart Mill as a highly successful thinker with much power of original thought, Venn had a profound influence on nineteenth-century scientists and philosophers ranging from Mill and Francis Galton to Lewis Carroll and Charles Sanders Peirce. Venn was heir to a clerical Evangelical dynasty, but religious doubts led him to resign Holy Orders and instead focus on an academic career. He wrote influential textbooks on probability theory and logic, became a fellow of the Royal Society, and advocated alongside Henry Sidgwick for educational reform, including that of women's higher education. Moreover, through his students, a direct line can be traced from Venn to the early analytic philosophy of G. E. Moore and Bertrand Russell, and family ties connect him to the famous Bloomsbury group. This essential book takes readers on Venn's journey from Evangelical son to Cambridge don to explore his life and work in context. Drawing on Venn's key writings and correspondence, published and unpublished, Lukas M. Verburgt unearths the legacy of the logician's wide-ranging thinking while offering perspective on broader themes in religion, science, and the university in Victorian Britain. The rich picture that emerges of Venn, the person, is of a man with many sympathies, sometimes mutually reinforcing and at other times outwardly and inwardly contradictory. *The Palgrave Handbook of German Idealism and Feminist Philosophy* Susanne Lettow, Tuija Pulkkinen, 2023-01-04. This book gives a comprehensive overview of the ways in which the relation between German Idealism and feminist philosophy has been explored. It demonstrates the significance of German Idealism for feminist philosophy and simultaneously brings out the relevance of feminist readings and interpretations for a critical understanding of German Idealism. Key Features: Presents original work on the German Idealists and considers their legacy within feminist thought from different philosophical perspectives. Incorporates perspectives from queer theory, new materialism, and critical philosophy of race and so explores German Idealism through the subversion and transformation of meanings and conceptual arrangements. Challenges the epistemic boundaries of philosophy by engaging the thought of women contemporary with the German Idealists, such as Bettina von Arnim and Karoline von Gnderrode. Places the work of the German Idealists on gender, sexuality, marriage, and family within the wider contexts of colonialism and European nation building. Considers how several key concepts of German Idealism, such as subject, reason, enlightenment,

autonomy and the sublime have been central targets of feminist theory Includes a Black feminist critique of Kantian universalism Fully reflecting the diversity that characterizes feminist thinking today The Palgrave Handbook of German Idealism and Feminist Philosophy is essential reading for scholars and graduate students of German idealism feminist philosophy and feminist theory Chapter s The Taxonomy of Race and the Anthropology of Sex Conceptual Determination and Social Presumption in Kant is are available open access under a Creative Commons Attribution 4 0 International License via link springer com

The Oxford Handbook of American and British Women Philosophers in the Nineteenth Century Lydia Moland, John D and Catherine T MacArthur Professor of Philosophy Lydia Moland, Alison Stone, 2025 The Oxford Handbook of American and British Women Philosophers in the Nineteenth Century challenges the misconception that there were no female philosophers during this era It explores the diverse philosophical contributions of women including those who wrote academic texts novels pamphlets journalism and activist writings and examines women s contributions to both philosophical movements and topics in social philosophy It reveals that the nineteenth century was more conducive to women authors than commonly believed and discusses how factors like race and class influenced women s philosophical perspectives The Handbook corrects the historical narrative and broadens our understanding of philosophy by showcasing the significant contributions of women philosophers

The Oxford Handbook of the History of Education John L. Rury, Eileen H. Tamura, 2019-06-17 This handbook offers a global view of the historical development of educational institutions systems of schooling ideas about education and educational experiences Its 36 chapters consider changing scholarship in the field examine nationally oriented works by comparing themes and approaches lend international perspective on a range of issues in education and provide suggestions for further research and analysis Like many other subfields of historical analysis the history of education has been deeply affected by global processes of social and political change especially since the 1960s The handbook weighs the influence of various interpretive perspectives including revisionist viewpoints taking particular note of changes in the past half century Contributors consider how schooling and other educational experiences have been shaped by the larger social and political context and how these influences have affected the experiences of students their families and the educators who have worked with them The Handbook provides insight and perspective on a wide range of topics including pre modern education colonialism and anti colonial struggles indigenous education minority issues in education comparative international and transnational education childhood education non formal and informal education and a range of other issues Each contribution includes endnotes and a bibliography for readers interested in further study
