The Oxford Handbook Of The History Of Medicine Oxford Handbooks In History:

The Oxford Handbook of the History of Medicine Mark Jackson, 2011-08-25 The Oxford Handbook of the History of Medicine celebrates the richness and variety of medical history around the world In recent decades the history of medicine has emerged as a rich and mature sub discipline within history but the strength of the field has not precluded vigorous debates about methods themes and sources Bringing together over thirty international scholars this handbook provides a constructive overview of the current state of these debates and offers new directions for future scholarship There are three sections the first explores the methodological challenges and historiographical debates generated by working in particular historical ages the second explores the history of medicine in specific regions of the world and their medical traditions and includes discussion of the global history of medicine the final section analyses from broad chronological and geographical perspectives both established and emerging historical themes and methodological debates in the history of medicine

Voices in the History of Madness Robert Ellis, Sarah Kendal, Steven J. Taylor, 2021-05-12 This book presents new perspectives on the multiplicity of voices in the histories of mental ill health In the thirty years since Roy Porter called on historians to lower their gaze so that they might better understand patient doctor roles in the past historians have sought to place the voices of previously silent marginalised and disenfranchised individuals at the heart of their analyses Today the development of service user groups and patient consultations have become an important feature of the debates and planning related to current approaches to prevention care and treatment This edited collection of interdisciplinary chapters offers new and innovative perspectives on mental health and illness in the past and covers a breadth of opinions views and interpretations from patients practitioners policy makers family members and wider communities Its chronology runs from the early modern period to the twenty first century and includes international and transnational analyses from Europe North America Asia and Africa drawing on a range of sources and methodologies including oral histories material culture and the built environment Chapter 4 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

Psychology and Health Wade Pickren, 2019-11-08 Weaving together the various foundations of psychology and health into a compelling narrative this book culturally and historically situates the practice strengths and shortcomings of the field Historian of psychology Wade Pickren traces the development of the relationship of health and psychology through a critical history that incorporates context culture and place from the early modern period to the present day Covering a range of topics and time periods including psychology and health in the nineteenth century stress in post World War II USA and the relationship between body mind and emotion in the modern world Psychology Health Culture Place and History outlines the journey of an understanding of health rooted in nature to a commodity governed by the neoliberal values of the marketplace including an exploration of the roles of self help emotions and resilience The book closes with an outline of contemporary alternatives in health psychology and points toward a future when once again psychology

and health are grounded in nature Throughout the rich connections across cultures illustrate the importance of cultural variations in understanding health disease and treatment This book is essential reading for scholars and students of health psychology at all levels It will also be of interest to professionals and practitioners in related fields as well as those interested in the enduring connection between health and psychology *Dis/ability in Mark* Lena Michelle

Nogossek-Raithel,2023-10-04 The gospel of Mark purposefully employs characters with specific and nuanced representations of dis ability to portray the unique authority the engaging message and the mission of the Markan Jesus Based on hermeneutical insights from Dis ability Studies this monograph is a contribution to the research of culturally and historically normalized corporeality in the biblical scriptures At the core of the investigation are the healing narratives passages that explicitly deal with a transformation from a described deviant bodily state to a positively valued corporeality Lena Nogossek Raithel not only analyzes the terminological and historical descriptions of these physical phenomena but also investigates their narrative function for the gospel text The author argues that the images of dis ability employed are far from accidental Rather they significantly influence the narrative s structure and impact embody its theological claims and characterize its protagonist Jesus With this thorough exegetical analysis Nogossek Raithel offers a firm historical foundation for anyone interested in the critical interpretation and theological application of the Markan healing narratives **New Directions in**

Literature and Medicine Studies Stephanie M. Hilger,2017-11-11 This book is situated in the field of medical humanities and the articles continue the dialogue between the disciplines of literature and medicine that was initiated in the 1970s and has continued with ebbs and flows since then Recently the need to renew that interdisciplinary dialogue between these two fields which are both concerned with the human condition has resurfaced in the face of institutional challenges such as shrinking resources and the disappearance of many spaces devoted to the exchange of ideas between humanists and scientists This volume presents cutting edge research by scholars keen on not only maintaining but also enlivening that dialogue They come from a variety of cultural academic and disciplinary backgrounds and their essays are organized in four thematic clusters pedagogy the mind body connection alterity and medical practice The Oxford Handbook of Science and Medicine in the Classical World Paul Keyser,with John Scarborough,2018-06-26 With a focus on science in the ancient

societies of Greece and Rome including glimpses into Egypt Mesopotamia India and China The Oxford Handbook of Science and Medicine in the Classical World offers an in depth synthesis of science and medicine circa 650 BCE to 650 CE The Handbook comprises five sections each with a specific focus on ancient science and medicine The second section covers the early Greek era up through Plato and the mid fourth century bce The third section covers the long Hellenistic era from Aristotle through the end of the Roman Republic acknowledging that the political shift does not mark a sharp intellectual break The fourth section covers the Roman era from the late Republic through the transition to Late Antiquity The final section covers the era of Late Antiquity including the early Byzantine centuries The Handbook provides through each of its

approximately four dozen essays a synthesis and synopsis of the concepts and models of the various ancient natural sciences covering the early Greek era through the fall of the Roman Republic including essays that explore topics such as music theory ancient philosophers astrology and alchemy The Oxford Handbook of Science and Medicine in the Classical World guides the reader to further exploration of the concepts and models of the ancient sciences how they evolved and changed over time and how they relate to one another and to their antecedents There are a total of four dozen or so topical essays in the five sections each of which takes as its focus the primary texts explaining what is now known as well as indicating what future generations of scholars may come to know Contributors suggest the ranges of scholarly disagreements and have been free to advocate their own positions Readers are led into further literature both primary and secondary through the comprehensive and extensive bibliographies provided with each chapter [National Library of Medicine Current Catalog](#) National Library of Medicine (U.S.),1982

Scientific Visual Representations in History Matteo Valleriani, Giulia Giannini, Enrico Giannetto, 2023-01-01 This book explores continuity and ruptures in the historical use of visual representations in science and related disciplines such as art history and anthropology The book also considers more recent developments that attest to the unprecedented importance of scientific visualizations such as video recordings animations simulations graphs and enhanced realities The volume collects historical reflections concerned with the use of visual material visualization and vision in science from a historical perspective ranging across multiple cultures from antiquity until present day The focus is on visual representations such as drawings prints tables mathematical symbols photos data visualizations mapping processes and on a meta level visualizations of data extracted from historical sources to visually support the historical research itself Continuity and ruptures between the past and present use of visual material are presented against the backdrop of the epistemic functions of visual material in science The function of visual material is defined according to three major epistemic categories exploration transformation and transmission of knowledge

An Introduction to the History of Medicine Fielding Hudson Garrison, 1929

Narratives of Disability and Illness in the Fiction of J. M. Coetzee Pawel Wojtas, 2024-03-31 This study offers a detailed analysis of the fiction of J M Coetzee including the novels of the South African and Australian periods to demonstrate the development of Coetzee's engagement with the complexities of non normative embodiment In this illuminating monograph Pawel Wojtas demonstrates the extent to which Coetzee's multifaceted depictions of disability offer a sustained critique of the ableist implications of political violence and neoliberal inclusionism alike Exploring a wide range of notions such as ocular normativism mute speech eco disability disability Gothic dismodernism autogerontography and bibliotherapy Wojtas shows how Coetzee's disabled textuality provokes a sustained

meditation on various forms of cultural denigration of disability experience *The Bloomsbury Handbook of Food and Material Cultures* Irina D. Mihalache, Elizabeth Zanon, 2023-02-23 Cookbooks Menus Ingredients Dishes Pots Kitchens Markets Museum exhibitions These objects representations and environments are part of what the volume calls the material cultures of food The book features leading scholars professionals and chefs who apply a material cultural perspective to consider two relatively unexplored questions 1 What is the material culture of food and 2 How are frameworks concepts and methods of material culture used in scholarly research and professional practice This book acknowledges that materiality is historically and culturally specific local but also global as food both transcends and collapses geographical and ideological borders Contributors capture the malleability of food its material environments and stuff and its representations in media museums and marketing while following food through cycles of production circulation and consumption As many of the featured authors explore food and its many material and immaterial manifestations not only reflect social issues but also actively produce preserve and disrupt identities communities economic systems and everyday social practices The volume includes contributions from and interviews with a dynamic group of scholars museum and information professionals and chefs who represent diverse disciplines such as communication studies anthropology history American studies folklore and food studies **Disability in Ancient Egypt and Egyptology** Alexandra F. Morris, Hannah Vogel, 2024-12-13 This book explores disability across time and space from ancient Egypt as a culture to Egyptology as a contemporary field to go beyond simply identifying disability encouraging readers to thoughtfully consider the history of disabled people in ancient Egypt and Egyptology Through a critical investigation this volume reshapes often overlooked narratives of disability within the discipline of Egyptology and Egyptian Archaeology Chapters explore evidence of disability the historiographical ways in which disability has been approached and how disability histories are mis represented in various contemporary spaces Coverage stretches across Egypt and Nubia from the Predynastic to the Roman periods as well as receptions of these cultures and disability in museums Its editors and many of its authors are disability community members who are experts in their respective professions comprising an international authorship and including voices from typically underrepresented groups Contributors range from early career researchers to senior scholars as well as those working outside of and adjacent to academia While focusing on ancient Egypt and Egyptology this volume offers new ways to consider disability in the broadest possible sense It uses terminology informed by the disability community and offers guidance for disability inclusivity in curatorial and pedagogical museum and university contexts It prioritises disability as an essential area of research in ancient world studies and platforms both ancient and modern disabled voices The deep detailed exploration into disability in the past and in our discipline offered by this book inspires readers to further explore and appreciate the infinite diversity of the human experience in all its infinite combinations The first book length treatment of the subject Disability in Ancient Egypt and Egyptology provides a much needed resource for students and scholars of ancient Egypt Egyptology and disability

in the ancient world It is also suitable for researchers in Disability Studies practitioners in broader ancient world studies and museum and heritage professionals Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Leading the Way to Heaven Carine van Rhijn, 2022-03-31 Starting from manuscripts compiled for local priests in the Carolingian period this book investigates the way in which pastoral care took shape at the local levels of society They show what illiterate lay people learned about their religion but also what priests themselves knew The Carolingian royal dynasty which ruled over much of Europe in the eighth and ninth century is well known for its success in war patronage of learning and its ambitious style of rulership A central theme in their plans for the future of their kingdom was to ensure God's everlasting support and to make sure that all inhabitants down to the last illiterate farmer reached eternal life in heaven This book shows how the ideal of leading everybody to salvation was a central element of Carolingian culture The grass roots approach shows how early medieval religion was anything but uniform how it encompassed all spheres of daily life and how well educated local priests did not only know how to baptise and preach but could also advise on matters concerning health legal procedure and even the future This volume is of great use to upper level undergraduates postgraduates and scholars interested in the ecclesiastical history of Europe in the Carolingian period

The Birth and Unfolding of Phases in History Michael A. Susko, 2025-09-10 The Birth and Unfolding of Phases in History From Neolithic to World Pueblo and U S History brings together four major works into a single arc of human time Michael A Susko argues that the rhythm of history is not confined to the rise of empires but begins in the Neolithic with triadic 45 year generations that set the first phases of historical time in motion Using this framework the book explores Neolithic as a non empire model of symbolic and generational phasing This Initial work is in progress World history through Egypt Judah Israel Rome and the Medieval Modern era contrasting empire based and prophetic alternatives Ancestral Pueblo history as a more egalitarian path outside empire's mold U S history as a largely empire driven model tempered by ideals of freedom and equality This panoramic view balances empire and non empire trajectories showing how civilizations universalize their visions either through force or through sharing covenant and inclusion Written in accessible language yet grounded in rigorous patterning it invites readers to see history not as inevitable empire but as a set of choices that continue to shape our present and future

A Singular Remedy Stefanie Gänger, 2020-10-15 Stefanie Gänger explores how medical knowledge was shared across societies tied to the Atlantic World between 1751 and 1820 Centred on Peruvian bark or cinchona Gänger shows how that remedy and knowledge about its consumption formulae for bittersweet aromatic wines narratives about its discovery or beliefs in its ability to prevent fevers were understood by men and women in varied contexts These included Peruvian academies and Scottish households Louisiana plantations and Moroccan court pharmacies alike This study in plant trade therapeutic exchange and epistemic brokerage shows how knowledge weaves itself into the fabric of everyday medical practice in different places

Colonial

Urbanism in the Age of the Enlightenment Claudia Murray, 2023-06-06 This book tells the story of how the monarchy aimed at creating a new capital city in a remote and forgotten area of the empire It also shows how the local Creole bourgeoisie rapidly assumed the role of urban developers and enhanced their economic status by investing in and controlling the Buenos Aires property market In a short period from 1776 to 1810 the urban transformation of Buenos Aires helped increase the Crown's revenues and considerably reduced contraband trade Nevertheless urban changes generated an internal struggle for power for the control of the city between the Spanish loyalist and the local wealthier Creoles As this book concludes for an empire such as the Spanish which was built upon a network of cities the Crown's loss of the control of Buenos Aires urban space was a serious threat to its power that foreshadowed Argentina's wars of independence [Current Catalog](#) National Library of Medicine (U.S.), 1993 First multi year cumulation covers six years 1965-70 **A Rosetta Key for Ancestral Pueblo History** Michael A. Susko, 2024-04-28 This work applies generational mapping to the Ancestral Pueblo using 15 year intervals Distinct phases found in other cultures will be tested as to their applicability They include 1 Invisible Beginnings 2 Establishment 3 Novel Consolidation and Opening Up 4 Crisis 5 Empire and Inclusion and 6 Renewal or Rigidification These findings will help the reader grasp the temporal flow of the Indigenous Southwest which might otherwise be piecemeal and lack clarity In addition to a useful mapping of time the author brings an archetypal awareness to the patterns used in imagery and shows how it resonates with historical phases We invite you to take a temporal journey into Pueblo times to follow the evolution of their culture and cosmology and to gain a sense of our solidarity with Indigenous peoples *The British National Bibliography* Arthur James Wells, 2009
