readers to an understanding of the symbolic methodological and spiritual issues that are central to important works by Africana writers but are rarely elucidated by Western criticism She begins with an examination of the ancient forms of j in Yoruba culture which creates a framework for innovative readings of important works by Africana writers including Zora Neale Hurston Toni Morrison Ben Okri Wole Soyinka Jamaica Kincaid and Ntozake Shange This rich analysis will appeal to readers of Africana literature African religion and philosophy feminist studies and comparative literature **New York Times Saturday Review of Books and Art** ,1957 The Cambridge History of Science Fiction Gerry Canavan, Eric Carl Link, 2018-12-31 The first science fiction course in the American academy was held in the early 1950s In the sixty years since science fiction has become a recognized and established literary genre with a significant and growing body of scholarship The Cambridge History of Science Fiction is a landmark volume as the first authoritative history of the genre Over forty contributors with diverse and complementary specialties present a history of science fiction across national and genre boundaries and trace its intellectual and creative roots in the philosophical and fantastic narratives of the ancient past Science fiction as a literary genre is the central focus of the volume but fundamental to its story is its non literary cultural manifestations and influence Coverage thus includes transmedia manifestations as an integral part of the genre s history including not only short stories and novels but also film art architecture music comics and interactive media
