The Psychological Roots of Religious Belief M. D. Faber, 2010-06-03 In this insightful new study M D Faber whose previous work on the psychology of religion has won widespread critical acclaim offers a comprehensive naturalistic explanation of religious experience from the intertwining perspectives of neuroscience and developmental psychology Faber here argues that belief in God the powerful sensation of his presence and the heartfelt assent to the reality of the supernatural are all produced by the mind brain s inherent tendency to discover in religious narrative a striking memorial echo of its own biological development Although Faber maintains that we are not wired specifically for God as many contend our brain is so constructed as to make us profoundly susceptible to religious myths These myths encourage us to map our early internalized experience onto a variety of supernatural narratives with the figure of the Parent God and his angelic assistants at the center A key point of Faber s analysis is the connection between the onset of infantile amnesia during childhood s later years and the evocative power of religious mythology Although we cannot explicitly recall our earliest interactions with our parents or other caregivers

religious narratives can and do jog these implicit emotional memories in an uncanny way which prompts us to accede to religion's central tenet namely that we are in the care of an omnipotent parental provider who watches over us and ministers to our needs. In the final analysis religious experience attempts to recapture and to reinstate in an idealized form the symbiotic union of the early parent-child relation. This pioneering highly original work takes the reader to the neurological psychological bedrock of religious experience. Darwin, Divinity, and the Dance of the Cosmos Bruce Sanguin, 2007 In March 2005 the United Nations released its Millennium Ecosystem Assessment. Among the findings 2/3 of the world's ecosystems are seriously degraded 90 percent of the world's fish stocks are depleted and climate change is not just something that might happen it is already upon us. Many people including many Christians will hear this and delude themselves into thinking that technology can and will save the day. A wiser and more helpful response especially for Christians is to find a way to step back into the flow of nature from which we have extricated ourselves. In *Darwin Divinity and the Dance of the Cosmos* Bruce Sanguin shows us the way. Sanguin draws on the latest scientific understandings of the nature of the universe and weaves them together with biblical meta-narratives and frequently overlooked strands of the Judeo-Christian tradition to create an ecological and truly evolutionary Christian theology a feat few theologians have even attempted. This book and more importantly the work of integration it suggests represents a fundamental challenge to our theological and liturgical models. But for those who are ready and willing to embark on an exciting theological journey of discovery it also represents a rich opportunity to become reacquainted with the Spirit of God moving in and through the very dynamics of an unfolding universe. In *Darwin Divinity and the Dance of the Cosmos* Sanguin draws on the latest scientific understandings of the nature of the universe and weaves them together with

biblical meta narratives and frequently overlooked strands of the Judeo Christian tradition to create an ecological and truly evolutionary Christian theology

Penelope Fitzgerald and the Consolation of Fiction Christopher Knight, 2016-09-13 Christopher J Knight's *Penelope Fitzgerald and the Consolation of Fiction* is a study of the British author Penelope Fitzgerald 1916-2000 attending to her nine novels especially as viewed through the lens both of late style she published her first novel *The Golden Child* at age sixty and in her words of consolation that is for doubts and fears as well as for naked human loss As in Shakespeare's late religiously inflected romances the two concerns coincide and Fitzgerald's ostensible comedies are marked by a clear experience of the tragic and the palpable sense of a world that verges on the edge of indifference to human loss Yet Fitzgerald her late age pessimism notwithstanding seeks with the aid of her own religious understandings in each of her novels to wrestle meaning consolation and even comedy from circumstances not noticeably propitious Or as she herself memorably spoke of her own deepest convictions I can only say that however close I've come by this time to nothingness I have remained true to my deepest convictions I mean to the courage of those who are born to be defeated the weaknesses of the strong and the tragedy of misunderstandings and missed opportunities which I have done my best to treat as a comedy for otherwise how can we manage to bear it The recipient of Britain's Booker Prize and America's National Book Critics Circle Award Penelope Fitzgerald's reputation as a novelist and author more generally has grown since her death significantly to the point that she is now widely judged one of Britain's finest writers comparable in worth to the likes of Jane
