Haaga Ph.D, 2019-10-21 This book of readings is designed to accomplish two tasks to philosophize on Igwebuike and to honour Professor KANU Ikechukwu Anthony O S A These two tasks or goals go hand in hand because Igwebuike is Professor Kanu s philosophy The book clearly demonstrates why Kanu deserves honour as an African

**of Judaism** Martin Goodman,2019-11-19 Judaism is one of the oldest religions in the world and it has preserved its distinctive identity despite the extraordinarily diverse forms and beliefs it has embodied over the course of more than three millennia A History of Judaism provides the first truly comprehensive look in one volume at how this great religion came to be how it has evolved from one age to the next and how its various strains sects and traditions have related to each other In this magisterial and elegantly written book Martin Goodman takes readers from Judaism's origins in the polytheistic world of the second and first millennia BCE to the temple cult at the time of Jesus He tells the stories of the rabbis mystics and messiahs of the medieval and early modern periods and guides us through the many varieties of Judaism today Goodman's compelling narrative spans the globe from the Middle East Europe and America to North Africa China and India He explains the institutions and ideas on which all forms of Judaism are based and masterfully weaves together the different threads of doctrinal and philosophical debate that run throughout its history The A to Z of the Crusades Corliss K. Slack,2009-07-24

During the late 11th through the early 14th centuries at least seven major expeditions were made between Western Europe and the Holy Land with the goal of ending Muslim control of Jerusalem Ultimately the crusaders were driven out but not before a cultural exchange had taken place that had an immense impact on Western Europe and an equally enormous albeit less positive impact on Arabs and the Islamic world Although the crusades occurred many centuries ago echoes still resound through the current clashes of nations and ideologies kidnappings for ransom assassinations and the declaring of jihad all making the crusades an eminently timely subject This one volume overview provides an accessible reference work for scholars students and general readers on the period with numerous entries on key persons places events battles and sieges use of weapons and armor and the deeper issues of the political and cultural background Complete with a detailed chronology and a bibliography this work allows readers to learn how Europe was changed forever by these battles with Islam
