THE PASSAGE TO EUROPE

HOW A CONTINENT BECAME A UNION

LUUK VAN MIDDELAAR

TRANSLATED BY LIZ WATERS

"A discerning, balanced, gracefully written book . . . Filled with the meat of European Union history over six decades." **FINANCIAL TIMES**

The Passage To Europe How A Continent Became A Union

Ivan T. Berend

The Passage To Europe How A Continent Became A Union:

The Passage to Europe Luuk van Middelaar, 2013-05-15 As financial turmoil in Europe preoccupies political leaders and global markets it becomes more important than ever to understand the forces that underpin the European Union hold it together and drive it forward This timely book provides a gripping account of the realities of power politics among European states and between their leaders Drawing on long experience working behind the scenes Luuk van Middelaar captures the dynamics and tensions shaping the European Union from its origins until today It is a story of unexpected events and twists of fate bold vision and sheer necessity told from the perspective of the keyplayers from de Gaulle to Havel Thatcher to Merkel Van Middelaar cuts through the institutional complexity by exploring the unforeseen outcomes of decisive moments and focusing on the quest for public legitimacy As a first hand witness to the day to day actions and decisions of Europe s leaders the author provides a vivid narrative of the crises and compromises that united a continent By revisiting the past he sheds fresh light on the present state of European unification and offers insights into what the future may hold

The New European Central Bank: Taking Stock and Looking Ahead Thomas Beukers, Diane Fromage, Giorgio Monti, 2022-11-28 The European Central Bank ECB was first introduced in the European legal order on the occasion of the Treaty of Maastricht 1992 An official EU institution which is governed by EU law the ECB of modern times differs vastly from its inception in 1998 which manifests in three main ways monetary policy options consideration of concerns other than low inflation in its policy making and its role in the Banking Union This edited collection offers a retrospective and prospective account of the ECB charting its evolution in detail with chapters written by leading academics and practitioners Part 1 examines the substantive changes to monetary policy introduced by the ECB as a consequence of the financial and sovereign debt crisis by considering their legal basis Part 2 moves beyond monetary policy by shifting to the new roles that the ECB has been called upon to play notably in banking supervision and resolution Parts 3 and 4 deal with transformations to inter and intra institutional relations and take stock of these transformations reflecting on the nature of the ECB of current times and which direction it could be heading in the future The authors analyse the most salient and controversial elements of the ECB s crisis response including unconventional monetary policy measures and the ECB s risk management strategy Beyond monetary policy the book further examines the role played by objectives such as financial stability and environmental sustainability the ECB s relationship to the Lender of Last Resort function as well as its new responsibilities in the Banking Union

Project Europe Kiran Klaus Patel, 2020-04-23 Today it often appears as though the European Union has entered existential crisis after decades of success condemned by its adversaries as a bureaucratic monster eroding national sovereignty at best wasteful at worst dangerous How did we reach this point and how has European integration impacted on ordinary people s lives not just in the member states but also beyond Did the predecessors of today s EU really create peace after World War II as is often argued How about its contribution to creating prosperity What was the role of citizens in this process and can the EU justifiably claim to

be a community of values Kiran Klaus Patel's bracing look back at the myths and realities of integration challenges conventional wisdoms of Europhiles and Eurosceptics alike and shows that the future of Project Europe will depend on the lessons that Europeans derive from its past Reinventing Europe Brigitte Leucht, Katja Seidel, Laurent Warlouzet, 2023-01-26 *Reinventing Europe* provides a thorough exploration of the history of the European Union tracing its development from inception to recent times It is the first book of its kind to contextualize the history of the EU within the wider frames of European and global history The volume also breaks new ground by successfully highlighting the roles individuals member states transnational actors and European institutions played in both advancing and slowing down European integration in the EU With chapters from leading academics in the UK the US and across Europe who draw on sources in a variety of languages the book presents a balanced and comprehensive account of this sometimes controversial Union It is made up of three main parts which in turn cover A narrative survey of the EU A historical analysis of the key institutions and policies Critical themes and vital geographical spaces There is also a historiographical essay which handily charts the literature in the field as well as 50 illuminating images a range of maps text boxes and primary source extracts a bibliography and a useful glossary Proportionality in EU Digital Law Jan Czarnocki, Przemyslaw Palka, 2024-10-03 This book addresses the interplay between the proportionality principle and EU digital law Does EU digital law provide a fair balance of rights and interests How does proportionality limit legislation in the digital economy How can it be used to balance competing rights and interests Diving into the dialectics of law and technology the book analyses the relevance of the proportionality principle in regulating the digital world and as a vital tool for balancing competing rights and interests The chapters analyse how conflicting rights and interests are resolved in EU digital law through the proportionality principle and critically reflect on its application They scrutinise recent EU regulatory initiatives such as the GDPR AI Act Copyright Directive DSA and more They reflect on the unique context of AI systems regulation digital marketing and data protection illuminating the application and impact of proportionality in these arenas Providing an in depth examination of legal actors and real life conflicts resolved by applying EU digital law the book explains the pivotal role of the principle of proportionality in achieving an optimal balance of rights in our digital era *Authoritarian Liberalism and the Transformation of Modern Europe* Michael A. Wilkinson, 2021-06-10 This title recounts the transformation of Europe from the post war era until the Euro crisis using the tools of constitutional analysis and critical theory The central claim is twofold Europe has been gradually reconstituted in a manner that combines political authoritarianism with economic liberalism and that this order is now in a critical condition Authoritarian liberalism is constructed supranationally through a taming of inter state relations in the project of European integration at the domestic level through the depoliticization of state society relations and socially through the emergence of a new constitutional imaginary based on liberal individualism In the language of constitutional theory this transformation can be captured by the substitution of supranationalism for internationalism technocracy for

democracy and economic for political freedom Sovereignty is restrained democracy curtailed and class struggle repressed This constitutional trajectory takes time to unfold and develop and it presents continuities and discontinuities On the one hand authoritarian liberalism is deepened by the neoliberalism of the Maastricht era and the creation of Economic and Monetary Union On the other hand counter movements then also begin to emerge geopolitically in the return of the German question domestically in the challenges to the EU presented by constitutional courts and informally in the rise of anti systemic political parties and movements Sovereignty democracy and political freedom resurface but are then more actively suppressed through the harsher authoritarian liberalism of the Euro crisis phase This leads now to an impasse Anti systemic politics return but remain uneasily within the EU suggesting authoritarian liberalism has reached its limits if just about managing to maintain constitutional order As yet there has been no definitive rupture with the possible exception of Brexit

Ever Closer Union? Perry Anderson, 2021-09-28 A comprehensive critical assessment of the EU after Brexit The European Union is a political order of peculiar stamp and continental scope its polity of 446 million the third largest on the planet though with famously little purchase on the conduct of its representatives Sixty years after the founding treaty what sort of structure has crystallised and does the promise of ever closer union still obtain Against the self image of the bloc Perry Anderson poses the historical record of its assembly He traces the wider arc of European history from First World War to Eurozone crisis the hegemony of Versailles to that of Maastricht and casts the work of the EU s leading contemporary analysts both independent critics and court philosophers in older traditions of political thought Are there likenesses to the age of Metternich lessons in statecraft from that of Machiavelli An excursus on the UK s jarring departure from the Union considers the responses it has met with inside the country s intelligentsia from the contrite to the incandescent How do Brussels and Westminster compare as constitutional forms Differently put which could be said to be worse *The European Union* Daniel Kenealy, John Peterson, Richard Corbett, 2015 The European Union How does it work is the perfect introduction to the EU s structure and operations for those coming to the subject for the first time An expert team of scholars and practitioners cut through the complexity to explain how the EU works in practice and equip students with the knowledge and skills they need to master the subject The fourth edition of this successful textbook reflects the ongoing changes in the EU in the aftermath of the Eurozone crises and the global context in which the EU exists It also features expanded coverage of theories of European integration and policy making and considers the hugely topical debate about the UK s future in the EU Students understanding of the main actors policies and developments in the EU is aided by the inclusion of helpful learning features throughout the text How it really works boxes challenge students to contrast the theory with how the EU actually works in practice while Compared to what features encourage them to think broadly and critically about the reality of politics in the EU **The Impact of Union Citizenship on the EU's Market Freedoms** Alina Tryfonidou, 2016-02-25 The book s aim is to consider the impact that the introduction and development of the status of Union citizenship has had on the

interpretation of the EU's market freedoms Starting by providing in its introductory part part one a comprehensive and up to date analysis of the status of Union citizenship and its development from 1998 onwards the book proceeds in part two to provide an in depth examination of the relationship between this status and the Union's market freedoms The central argument of the book is that as a result of the move towards the creation of a meaningful status of Union citizenship the market freedoms have been reconceptualised as fundamental Union citizenship rights and their interpretation has adapted accordingly Part three of the book analyses the result of this process of transforming the market freedoms into sources of fundamental Union citizenship rights and considers where it is likely to lead in the future It demonstrates that despite the fact that this development appears to be the next natural step in the process of constructing a meaningful notion of Union citizenship it brings with it a number of issues that the EU will have to consider and carefully address In particular the method which the Court seems up until now to have employed to facilitate the metamorphosis of the market freedoms into citizenship rights has led to criticisms on the grounds of legitimacy and coherence and will undoubtedly lead to further problems in the future Hence part three of the book also identifies the difficulties that may emerge as a result of this process and suggests ways in which they may be overcome

The European Union Illuminated A. El-Agraa, 2015-05-05 The EU is under stress Many believe in the euro's demise because they blame it for the 2008 financial crisis and the unwelcome austerity measures Many resent the immigrants from the new EU member states threatening the survival of the Single European Market Many complain of a Brussels diktat seeking an escape from joint EU decisions Several member states want to unilaterally deal with the enhanced competition from the emerging markets especially China undermining the EU's common commercial policy run by a single EU commissioner And many in the UK want its exit from the EU diluting EU unity and reducing its global influence These concerns are either misguided or require a stronger EU to deal with them this book aims to address these issues by considering the nature importance and future of the European Union

The Constitution of the European Union Ulrich Haltern, 2025-01-23 This book provides a contextual analysis of the constitution of the European Union which unlike most constitutions does not belong to a state Rather the EU is an international organisation that has moved beyond the features of international law into a terrain very close to the municipal law of federal states Many features we take for granted in nation states are non-existent or contested in the Union There is no European Union constitutional text in the proper sense the Constitutional Treaty signed by the Member States in 2004 failed spectacularly in the process of popular ratification The Union's founding texts were international treaties international law not constitutional law And yet over time legal doctrine put into place by the European Court of Justice in Luxembourg has led to constitutional attributes of Union law and political practice led by the Commission has mirrored these attributes complementing a de facto constitutionalist environment As a consequence we have seen a steady re-ordering of the functional boundaries of the Member States followed by a nascent re-ordering of the imagined boundaries of political community and self All of this is

constitutionalism writ large legal doctrines institutional arrangements political practices and their implications for legitimacy democracy and political self imagination and together they form the subject of this fascinating book **European Union**

Law Damian Chalmers,Gareth Davies,Giorgio Monti,Veerle Heyvaert,2024-03-28 The most current contextual and authoritative EU law text written for both EU and non EU markets and promoting critical reflection **Towards a**

European Public Law Bernard Stirn,2017-04-14 A European public law is under construction but how has this occurred and what is its character Stirn proposes that this European public law is being constructed by the convergence of three circles the law of the European Union the law of the European Convention on Human Rights and the different domestic legal orders The mutually influential relationship of these constituents has allowed them to develop most considerably in the jurisprudence of the Court of Justice of the European Union and the European Court of Human Rights The book begins by reflecting on the different phases of the development of the European project from the end of the First World War It outlines the transition from the European Coal and Steel Community to the European Union as well as the other institutions contributing to these developments The discussion then moves to the European legal order which consists of the law of the European Union and the European Convention on Human Rights Stirn explores how in spite of occasional false starts and frictions their relationship is becoming ever closer and how their characteristics in law are becoming increasingly similar Furthermore Stirn analyses the relationship between European law and national legal systems The differing approach to domestic incorporation of international law whether it be monist or dualist is considered as well as the recognition that European law is superior to domestic law The character specifically of EU law and how it compares to international and domestic law is also discussed in particular its unique features but also the principles it shares with domestic law In addition the book examines the existence or not in member states of constitutional courts the level or jurisdictional orders and the recruitment and status of judges Similar trends across Europe in public administration are also accounted for and subjected to analysis Stirn concludes that a European model of public administration is becoming apparent **How to Democratize**

Europe Stéphanie Hennette,Thomas Piketty,Guillaume Sacriste,Antoine Vauchez,2019-05-08 An all star cast of scholars and politicians from Europe and America propose and debate the creation of a new European parliament with substantial budgetary and legislative power to solve the crisis of governance in the Eurozone and promote social and fiscal justice and public investment The European Union is struggling The rise of Euroskeptic parties in member states economic distress in the south the migrant crisis and Brexit top the news But deeper structural problems may be a greater long term peril Not least is the economic management of the Eurozone the nineteen countries that use the Euro How can this be accomplished in a way generally acceptable to members given a political system whose structures are routinely decried for a lack of democratic accountability How can the EU promote fiscal and social justice while initiating the long term public investments that Europe needs to overcome stagnation These are the problems a distinguished group of European and American scholars

set out to solve in this short but valuable book Among many longstanding grievances is the charge that Eurozone policies serve large and wealthy countries at the expense of poorer nations It is also unclear who decides economic policy how the interests of diverse member states are balanced and to whom the decision makers are accountable The four lead authors Stéphanie Hennette Thomas Piketty Guillaume Sacriste and Antoine Vauchez describe these and other problems and respond with a draft treaty establishing a parliament for economic policy its members drawn from national parliaments We then hear from invited critics who express support objections or alternative ideas How to Democratize Europe offers a chance to observe how major thinkers view some of the Continent's most pressing issues and attempt to connect democratic reform with concrete changes in economic and social policies

The Question of Competence in the European Union Loïc Azoulay, 2014-02-20 The classic debate surrounding the prolific role of the European Union in defining spheres of competence and power relationships has long divided scholarly opinion However in recent years the long standing acquiescence to the broad powers of the Union has given way to the emerging perception of a competence problem in Europe For a long period it was taken for granted that the European Community could act whenever its action was justified on the basis of the widely interpreted objectives of the Treaties However this context has since changed There is a widespread perception of a competence problem in Europe and the overabundance of provisions limiting the Union's competences is one of the most obvious marks left by the Lisbon Treaty This book discusses the extent to which the parameters of power throughout the Union and its Member States have been recast by the recent implementation of the Lisbon Treaty and doctrines developed by the European Court of Justice Comprised of contributions from a vast array of leading practitioners and academics in the field of EU Law this volume assesses the debate surrounding the political identity of the European Union and further illustrates the relevance of the Federal theory of sharing competences for the development of EU Law Finally the question of new potential limits to Union's competence is addressed If anything this broad reflection on the notion of competence in the EU law context is a way of opening up the question of the nature and contours of the political identity of the European Union

The Institutions of the European Union Dermot Hodson, John Peterson, 2017 This book is the key text for anyone wishing to understand the functions powers and composition of the EU's institutions From the Council of Ministers to the European Central Bank all of the most important organizations are analysed and explained by international experts providing students with everything they need to know

The History of European Integration Ivan T. Berend, 2016-05-20 The foundation of the European Union was one of the most important historical events in the second half of the 20th century In order to fully appreciate the modern state of the EU it is crucial to understand the history of European integration This accessible overview differs from other studies in its focus on the major roles played by both the United States and European multinational corporations in the development of the European Union Chronologically written and drawing on new findings from two major archives the archives of the US State Department and Archive of European Integration this book sheds

crucial new light on the integration process The History of European Integration offers a major contribution to our understanding of Europe's postwar history and will be essential reading for any student of postwar European History Contemporary History European Politics and European Studies *The New Intergovernmentalism* Christopher J. Bickerton, Dermot Hodson, Uwe Puetter, 2015 The twenty years since the signing of the Maastricht Treaty have been marked by an integration paradox although the scope of European Union EU activity has increased at an unprecedented pace this increase has largely taken place in the absence of significant new transfers of power to supranational institutions along traditional lines Conventional theories of European integration struggle to explain this paradox because they equate integration with the empowerment of specific supranational institutions under the traditional Community method New governance scholars meanwhile have not filled this intellectual void preferring instead to focus on specific deviations from the Community method rather than theorizing about the evolving nature of the European project The New Intergovernmentalism challenges established assumptions about how member states behave what supranational institutions want and where the dividing line between high and low politics is located and develops a new theoretical framework known as the new intergovernmentalism The fifteen chapters in this volume by leading political scientists political economists and legal scholars explore the scope and limits of the new intergovernmentalism as a theory of post Maastricht integration and draw conclusions about the profound state of political disequilibrium in which the EU operates This book is of relevance to EU specialists seeking new ways of thinking about European integration and policy making and general readers who wish to understand what has happened to the EU in the two troubled decades since 1992 **The Foundations of the EU as a Polity** Massimo Fichera, 2018-08-31 In this insightful book Massimo Fichera provides an original account of European integration as a process He argues that European constitutionalism has been informed from its earliest stages by a meta rationale which is expressed by security and fundamental rights as discourses of power Employing this descriptive and normative conceptual framework to analyse the development of the EU as a polity chapters cover significant recent events such as the Eurozone crisis the refugee crisis the rule of law crisis Brexit and the constitutional identity crisis Whither the West? Chiara Giorgetti, Guglielmo Verdirame, 2021-04-29 On a variety of international legal matters relations between the US and European countries are evolving and even diverging In an ever changing world understanding the reasons for this increasing dichotomy is fundamental and has a profound impact on our understanding of world dynamics and globalization and ultimately on our awareness of where the West is going This interdisciplinary volume proposes new frameworks to understand the differences in approach to international law in the US and Europe To explain the theoretical and historical underpinnings of the diverging views the expert essays present new research and develop innovative conclusions They assess and explore issues such as the idea of sovereignty constitutional law the use of force treaty law and international adjudication Leading authorities in different disciplines including law and political science the contributors engage in a new

dialogue and develop a new discourse on inter Atlantic views

Thank you for downloading **The Passage To Europe How A Continent Became A Union**. As you may know, people have search numerous times for their favorite books like this The Passage To Europe How A Continent Became A Union, but end up in malicious downloads.

Rather than reading a good book with a cup of coffee in the afternoon, instead they are facing with some infectious virus inside their desktop computer.

The Passage To Europe How A Continent Became A Union is available in our digital library an online access to it is set as public so you can download it instantly.

Our digital library saves in multiple countries, allowing you to get the most less latency time to download any of our books like this one.

The Passage To Europe How A Continent Became A Union Introduction

In the digital age, access to information has become easier than ever before. The ability to download The Passage To Europe How A Continent Became A Union has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download The Passage To Europe How A Continent Became A Union has opened up a world of possibilities. Downloading The Passage To Europe How A Continent Became A Union provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading The Passage To Europe How A Continent Became A Union has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download The Passage To Europe How A Continent Became A Union. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading The Passage To Europe How A Continent Became A Union. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the

efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading The Passage To Europe How A Continent Became A Union, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download The Passage To Europe How A Continent Became A Union has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About The Passage To Europe How A Continent Became A Union Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. The Passage To Europe How A Continent Became A Union is one of the best book in our library for free trial. We provide copy of The Passage To Europe How A Continent Became A Union in digital format, so the resources that you find are reliable. There are also many Ebooks of related with The Passage To Europe How A Continent Became A Union. Where to download The Passage To Europe How A Continent Became A Union online for free? Are you looking for The Passage To Europe How A Continent Became A Union PDF? This is definitely going to save you time and cash in something you should think about.
