Bolton, The Globe James Hannam, 2023-08-12 A New Scientist Best Book of 2023 From Babylon to Columbus and beyond a journey across millennia and yes the globe exploring how we came to understand our spherical planet The Globe tells the story of humanity's quest to discover the form of the world that the Earth is round and not flat Philosophers in ancient Greece deduced the true shape of the Earth in the fourth century BCE the Romans passed the knowledge to India from where it spread to Baghdad and Central Asia In early medieval Europe Christians debated the matter but long before the time of Columbus the Catholic Church had accepted that Earth is a ball However it wasn't until the seventeenth century that Jesuit missionaries finally convinced the Chinese that their traditional square earth cosmology was mistaken An accessible challenge to long established beliefs about the history of ideas The Globe shows how the realization that our planet is a sphere deserves to be considered the first great scientific achievement **Barra and Zaman: Reading Egyptian**

**Modernity in Shadi Abdel Salam's The Mummy** Youssef Rakha, 2020-12-16 Brilliantly introduced by Nezar Andary this book is a work of creative nonfiction that approaches writing on film in a fresh and provocative way It draws on academic literary and personal material to start a dialogue with the Egyptian filmmaker Shadi Abdel Salam's The Mummy 1969 tracing the many meanings of Egypt's postcolonial modernity and touching on Arab Muslim and ancient Egyptian identities through watching the film

**Canaad** D. A. Wood, 2022-12-20 Gods against gods men against men each kind against each other Who is in the right Truly which ones could ever conquer Death So Laeya the Canaanite goddess Athirat masked in human form asks after a crucial battle Situated in the interimperial turmoil of the Late Bronze Age Cana d follows this heroine's journey as it dovetails with that of Aqhat a refugee from the Levantine coast After tragedy casts Aqhat into the desert a prophecy affords him the opportunity to slay three deities before the year's end and thereby become divine himself Determined to right the wrongs of those responsible for his community's suffering he and his companions join forces with Laeya setting out to permanently revolutionize how mortals and gods interrelate with consequences that even the gods cannot fathom At once a speculative and historically attuned study of religion Cana d brings the Ancient Near East to life in tangible and dramatic form weaving together largely unknown histories and numerous fragmentary myths from a Canaanite perspective

Akhenaten Son of the Sun Diego Kurilo, Amenhotep IV he 1 ruled for the first five years maintaining religious policies and traditions just like his father However in his fifth year on the throne he underwent a profound religious transformation and shifted his devotion from the cult of the god Amun to the cult of the sun god Aten disk of the sun most likely a symbolic grouping of the symbol of Ra Over the next 12 years he brought about a fundamental religious transformation abolishing the traditional religious rites of Egypt primarily the cult of Amon 2 and instituted the world's first known state monotheistic religion and according to some monotheism itself *Tears for My Sisters* L. Lewis Wall, 2018-01-15 The tragedy of Queen Henhenit The human obstetrical dilemma and its consequences The conquest of obstructed labor Dr Sims finds a cure Structural violence and obstetric fistula the Hausa case Deadly delays deciding to seek care Deadly delays getting to a place

of care Deadly delays receiving care Compassion respect and justice Hamlin fistula a vision realized Epilogue lessons learned and the way forward      Reflections on Play, Sport, and Culture Felix Lebed,2024-02-06 The psychological dependence of humanity on playing is huge Its nature and functional utility are unclear These linked yet contradictory issues have created the intrigue that has fed philosophical thought for more than two hundred years During this period philosophy transferred many of the subjects of its analysis to the aegis of the humanities that it spawned Each of them pays close attention to human play and studies it with its own methods of theoretical and experimental research Thus what was once a general philosophical comprehension of human play has branched out into different directions definitions and theories This new book represents a renewed general view of human play The unique quality of the volume lies in its fairly rare interdisciplinary methodology encompassing a broad spectrum of the humanities philosophy anthropology sociology and the history of play and behavioral analysis of playing which have been done by the author As a result the volume ends with the proposition of a new general approach to human play that is named by the author play field theory Such an approach makes reflections on play sport and culture a source for all scholars studying play by widening their knowledge through both a new general view and their familiarization with notions from neighboring fields and disciplines      **Ancient Egypt's Myths and Beliefs**

Fergus Fleming,Alan Lothian,2011-12-15 Egyptian myths expressed the core values of one of the most sophisticated ancient civilizations Ancient Egyptians had a deep belief in the existence of many gods and in life after death Readers will learn that the Egyptians identified many of their divinities with elements of the natural world such as the sun stars and animals They also believed their kings to be endowed with divine power Some of ancient Egypt s most vivid and powerful religious myths are accompanied by photographed works of art and architecture which further illuminate the religious symbolism and magical beliefs of the ancient Egyptians      **Understanding Happiness** Mick Power,2015-11-23 We all want to be happy

and there are plenty of people telling us how it can be achieved The positive psychology movement indeed has established happiness as a scientific concept within everyone s grasp But is happiness really something we can actively aim for or is it simply a by product of how we live our lives more widely Dr Mick Power Professor of Clinical Psychology and Director of Clinical Programmes at the National University of Singapore provides a critical assessment of what happiness really means and the evidence for how it can be increased Arguing that negative emotions are as important to overall well being as the sunnier sides of our disposition the book examines many of the claims of the positive psychology movement including the relationship between happiness and physical health and argues that resilience adaptability in the face of adversity psychological flexibility and a sense of generativity and creativity are far more achievable as life goals This is a book which will fascinate anyone interested in positive psychology or anyone who has ever questioned the plethora of publications suggesting that blissful happiness is ten easy steps away      Myths, Symbols and Legends of Solar System Bodies Rachel

Alexander,2014-11-04 This book is an amateur astronomer s guide to the mythology and symbolism associated with the

celestial bodies in the Solar System and even includes some of the legendary tales of people who had or have a connection with these objects It explores different cultures for example the Greco Roman and the Norse and different times and how stories were used to explain the worlds they saw above them You d be amazed how much of our world today reflects the myths and stories of these cultures Most amateur astronomers are familiar with the various Solar System objects but they will be only peripherally aware of what ancient cultures thought of these other worlds In fact the mythology of the planets challenges many twenty first century concepts and beliefs There are other books available on astromythology but this one focuses mostly on our own Solar System as opposed to the constellations and deep sky objects Alexander offers a new angle on timeless subjects and is exciting informative and dramatic as well as surprisingly relevant to everyday life Find out for yourself how our modern world is steeped in the bygone worlds of yesteryear *Inside the Whale* James Sale, 2013-02-19 On the 23rd July 2011 I collapsed in the car as my wife was driving me to visit my mother and brother in Essex I was taken to hospital and there for about three months with brief interludes I remained I had two major operations lasting over 5 hours each Two sarcomas were removed one the size of a grapefruit the other the size of an avocado both in my small intestine and one very dangerously placed Some 30% of my small intestines were removed and then for nearly five weeks I couldn t eat or even drink water I lost over 56 pounds in weight and became remarkably weak In the darkness the light of the Spirit shone and I felt the healing and knew from the revelation that was given me that I would leave that hospital for as my son Joseph subsequently said my mission was not yet done These poems then are the fruit of that experience I have been writing poems for over 45 years and if anything could death has deepened my sense of vocation around the magic and the healing power of words

**Mythology of the Egyptians** Don Nardo, 2014-07-01 As many as six thousand years ago when their civilization flourished in the Nile River valley the ancient Egyptians told many of the myths in this book Author Don Nardo discusses various myths including The Creation of the Gods and Humans and The Near Destruction of Humanity Nardo also introduces us to the story within a story in The Shipwrecked Sailor Each chapter is followed by a Question and Answer section which covers characters themes and symbols An Expert Commentary section enhances the myths with opinions by noted scholars
