The Pitching Bible The Seven Secrets Of A Successful Business Pitch:

The Pitching Bible Paul Boross, 2010 Every product started as an idea a thought in someone's mind Thousands or even millions of people had the same idea and one of those ideas became a reality Not because it was the best idea but because its creator had the courage and confidence to share it It wasn't necessarily the best idea It was the best pitched This book is called The Pitching Bible because it contains everything you need to know to develop your skills as an engaging and compelling presenter It won't teach you how to design computer slides because they are not the pitch You are the message You are the product You are the pitch By reading and taking to heart these principles you will be better at what you do If you read this book think that doesn't apply to me or I've already tried that and do nothing then it won't work These seven secrets born out of the lectures that I have delivered all over the world are the distillation of my years of real life front line experience I've discovered the hard way what works and after spending many years training and coaching people in developing the perfect pitch it's time for me to share these secrets with you This book will not make your ideas any better It probably won't make you have your ideas any sooner although with more confidence you might well find yourself pitching your ideas much sooner than you would have done This book will definitely help you to get your ideas across more effectively and because of that this book contains the Seven Secrets to your competitive advantage
